

YEAR 8 STAGE 4 ELECTIVE | TEACHER PROGRAM

Year 8 Agriculture

Introductory unit contributing to a 100-hour Agriculture Technology elective

Program control	Verified value
Delivery	2027 Year 8 Stage 4
Duration	20 weeks 50 x 60-minute periods 5 periods per fortnight average 2.5 hours per week
Syllabus	Agriculture Technology 7–10 Syllabus (2024) Implemented from 2027
Outcome use	Stage 5 outcomes adjusted for Year 8 under AGT4-ADJ-01; the adjustment advice is not an outcome code.
Program status	Local source-bound candidate not committed, pushed or deployed
Course boundary	This unit records 50 periods. Additional study is required to complete the 100-hour elective.

Authority and boundaries

[Official syllabus overview](#) | [Official outcomes](#) | Current local practical procedures, issued project documents and formal assessment records remain controlling where applicable. | [Open the Year 8 Agriculture course site](#)

Teacher to confirm: Exact agriculture practical or fieldwork activities, resources, local risk controls and supervision.

Assessment and course boundary: No authorised formal assessment notification was supplied; weighting, due date and submission route remain Teacher to confirm. The broader enterprise sequence and required collaborative activity remain outside this 50-period unit.

Outcomes mapped in this unit

Outcome	Exact outcome statement
AGT5-SAF-01	applies production processes and safe work practices in agricultural contexts
AGT5-APG-01	explains factors that influence animal and plant selection, growth and development in agricultural enterprises and systems
AGT5-PRA-01	explains industry practices in agricultural enterprises and systems
AGT5-ENV-01	analyses relationships between agricultural production, sustainability and consumers
AGT5-IVT-01	investigates and assesses the influence of innovation and management practices on agricultural enterprises and systems
AGT5-USE-01	selects and justifies the use of technologies and processes in agricultural production and systems
AGT5-COM-01	communicates ideas and concepts in agricultural technology contexts

Teaching and learning sequence

Existing unit content is preserved. Full route, source and evidence cross-references are retained in the alignment manifest.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Agriculture and everyday life	Teach Agriculture and everyday life; students complete the adjacent 10-question check and save a response.	S07 — Explain how Australian agricultural systems changed from early European to current practices	Saved check feedback and source-grounded written response. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-COM-01.
2	Site/theory	Agricultural industry sectors	Teach Agricultural industry sectors; students complete the adjacent 10-question check and save a response.	S07 — Investigate Australian agricultural production and industry trends	Saved check feedback and source-grounded written response. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-COM-01.
3	Project/folio	Change in Australian agriculture	Apply Change in Australian agriculture; students save the check, response and selected folio evidence.	S07 — Explain how Australian agricultural systems changed from early European to current practices	Saved check, written response and organised folio evidence. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-COM-01.
4	Practical	Module 1: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S07 — Investigate Australian agricultural production and industry trends	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-PRA-01.
5	Practical	Module 1: teacher-approved practical or fieldwork 2	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S07 — Explain how Australian agricultural systems changed from early European to current practices	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-PRA-01.
6	Site/theory	Agriculture and connected markets	Teach Agriculture and connected markets; students complete the adjacent 10-question check and save a response.	S07 — Compare short- and long-term sustainability effects of production systems	Saved check feedback and source-grounded written response. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01.
7	Site/theory	The four dimensions of food security	Teach The four dimensions of food security; students complete the adjacent 10-question check and save a response.	S07 — Investigate environmental, social and political influences on food security	Saved check feedback and source-grounded written response. Outcomes: AGT5-IVT-01, AGT5-COM-01, AGT5-PRA-01.
8	Project/folio	Threats and resilient responses	Apply Threats and resilient responses; students save the check, response and selected folio evidence.	S07 — Compare short- and long-term sustainability effects of production systems	Saved check, written response and organised folio evidence. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
9	Practical	Module 2: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S07 — Investigate environmental, social and political influences on food security	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-PRA-01.
10	Practical	Module 2: teacher-approved practical or fieldwork 2	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S07 — Compare short- and long-term sustainability effects of production systems	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-PRA-01.
11	Site/theory	Cattle groups and adaptation clues	Teach Cattle groups and adaptation clues; students complete the adjacent 10-question check and save a response.	S06 — Explain breed suitability for animal enterprises, climates and markets	Saved check feedback and source-grounded written response. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.
12	Site/theory	Selective breeding and evidence	Teach Selective breeding and evidence; students complete the adjacent 10-question check and save a response.	S06 — Identify animal-breeding programs, techniques and technologies	Saved check feedback and source-grounded written response. Outcomes: AGT5-USE-01, AGT5-COM-01, AGT5-APG-01.
13	Project/folio	Matching cattle to a production environment	Apply Matching cattle to a production environment; students save the check, response and selected folio evidence.	S06 — Explain breed suitability for animal enterprises, climates and markets	Saved check, written response and organised folio evidence. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.
14	Practical	Module 3: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Identify animal-breeding programs, techniques and technologies	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.
15	Practical	Module 3: teacher-approved practical or fieldwork 2	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Explain breed suitability for animal enterprises, climates and markets	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.
16	Site/theory	Extensive and intensive beef systems	Teach Extensive and intensive beef systems; students complete the adjacent 10-question check and save a response.	S07 — Explain production techniques for selected agricultural systems and enterprises	Saved check feedback and source-grounded written response. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
17	Site/theory	Pasture and feedlot feeding pathways	Teach Pasture and feedlot feeding pathways; students complete the adjacent 10-question check and save a response.	S06 — Explain nutritional requirements across stages of animal production	Saved check feedback and source-grounded written response. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01.
18	Project/folio	Comparing systems with evidence	Apply Comparing systems with evidence; students save the check, response and selected folio evidence.	S07 — Explain production techniques for selected agricultural systems and enterprises	Saved check, written response and organised folio evidence. Outcomes: AGT5-USE-01, AGT5-SAF-01, AGT5-APG-01.
19	Practical	Module 4: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Explain nutritional requirements across stages of animal production	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01.
20	Practical	Module 4: teacher-approved practical or fieldwork 2	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S07 — Explain production techniques for selected agricultural systems and enterprises	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01.
21	Site/theory	Dairy breeds: traits and evidence	Teach Dairy breeds: traits and evidence; students complete the adjacent 10-question check and save a response.	S06 — Identify resources needed to establish an animal enterprise	Saved check feedback and source-grounded written response. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.
22	Site/theory	Conditions, resources and dairy production	Teach Conditions, resources and dairy production; students complete the adjacent 10-question check and save a response.	S06 — Explain farm-gate-to-consumer steps for animal products	Saved check feedback and source-grounded written response. Outcomes: AGT5-USE-01, AGT5-COM-01, AGT5-APG-01.
23	Project/folio	From milk to value-added products	Apply From milk to value-added products; students save the check, response and selected folio evidence.	S06 — Identify resources needed to establish an animal enterprise	Saved check, written response and organised folio evidence. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.
24	Practical	Module 5: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Explain farm-gate-to-consumer steps for animal products	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
25	Practical	Module 5: teacher-approved practical or fieldwork 2	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Identify resources needed to establish an animal enterprise	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.
26	Site/theory	Why milk is processed	Teach Why milk is processed; students complete the adjacent 10-question check and save a response.	S06 — Assess animal-product quality against identified market specifications	Saved check feedback and source-grounded written response. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-ENV-01.
27	Site/theory	Food safety controls from farm to fridge	Teach Food safety controls from farm to fridge; students complete the adjacent 10-question check and save a response.	S06 — Identify risks and demonstrate safe work practices in animal enterprises	Saved check feedback and source-grounded written response. Outcomes: AGT5-ENV-01, AGT5-USE-01, AGT5-SAF-01.
28	Project/folio	Nutrition information and informed choice	Apply Nutrition information and informed choice; students save the check, response and selected folio evidence.	S06 — Assess animal-product quality against identified market specifications	Saved check, written response and organised folio evidence. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-ENV-01.
29	Practical	Module 6: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Identify risks and demonstrate safe work practices in animal enterprises	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01.
30	Practical	Module 6: teacher-approved practical or fieldwork 2	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Assess animal-product quality against identified market specifications	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01.
31	Site/theory	What horticulture includes	Teach What horticulture includes; students complete the adjacent 10-question check and save a response.	S05 — Select plants and explain their suitability to enterprise, climate and market	Saved check feedback and source-grounded written response. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01.
32	Site/theory	Why crops suit particular regions	Teach Why crops suit particular regions; students complete the adjacent 10-question check and save a response.	S05 — Investigate seasonal plant-product market specifications and availability	Saved check feedback and source-grounded written response. Outcomes: AGT5-ENV-01, AGT5-USE-01, AGT5-APG-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
33	Project/folio	Seasonality, markets and production decisions	Apply Seasonality, markets and production decisions; students save the check, response and selected folio evidence.	S05 — Select plants and explain their suitability to enterprise, climate and market	Saved check, written response and organised folio evidence. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01.
34	Practical	Module 7: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S05 — Investigate seasonal plant-product market specifications and availability	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-USE-01.
35	Site/theory	Tracing a horticultural product from paddock to plate	Teach Tracing a horticultural product from paddock to plate; students complete the adjacent 10-question check and save a response.	S05 — Explain farm-gate-to-consumer steps and emerging plant traceability technologies	Saved check feedback and source-grounded written response. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01.
36	Site/theory	Sensors, robotics and precision decisions	Teach Sensors, robotics and precision decisions; students complete the adjacent 10-question check and save a response.	S05 — Justify technologies used to collect and manage plant-production data	Saved check feedback and source-grounded written response. Outcomes: AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01.
37	Project/folio	Plant parts, food labels and balanced choices	Apply Plant parts, food labels and balanced choices; students save the check, response and selected folio evidence.	S05 — Explain farm-gate-to-consumer steps and emerging plant traceability technologies	Saved check, written response and organised folio evidence. Outcomes: AGT5-COM-01, AGT5-PRA-01, AGT5-ENV-01.
38	Practical	Module 8: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S05 — Justify technologies used to collect and manage plant-production data	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-PRA-01, AGT5-USE-01.
39	Site/theory	Pork products and value adding	Teach Pork products and value adding; students complete the adjacent 10-question check and save a response.	S06 — Identify animal-breeding technologies and explain their effect on production	Saved check feedback and source-grounded written response. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-COM-01.
40	Site/theory	Reading country-of-origin evidence	Teach Reading country-of-origin evidence; students complete the adjacent 10-question check and save a response.	S06 — Investigate market specifications for agricultural animal products	Saved check feedback and source-grounded written response. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-COM-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
41	Project/folio	Breed traits, crossbreeding and evidence	Apply Breed traits, crossbreeding and evidence; students save the check, response and selected folio evidence.	S06 — Identify animal-breeding technologies and explain their effect on production	Saved check, written response and organised folio evidence. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-COM-01.
42	Practical	Module 9: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Investigate market specifications for agricultural animal products	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01.
43	Site/theory	Comparing pig housing systems	Teach Comparing pig housing systems; students complete the adjacent 10-question check and save a response.	S06 — Explain animal nutritional requirements and apply welfare guidelines	Saved check feedback and source-grounded written response. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01.
44	Site/theory	Feed, growth and production goals	Teach Feed, growth and production goals; students complete the adjacent 10-question check and save a response.	S07 — Explain production techniques for selected agricultural systems and enterprises	Saved check feedback and source-grounded written response. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01.
45	Project/folio	Welfare evidence and defensible choices	Apply Welfare evidence and defensible choices; students save the check, response and selected folio evidence.	S06 — Explain animal nutritional requirements and apply welfare guidelines	Saved check, written response and organised folio evidence. Outcomes: AGT5-USE-01, AGT5-SAF-01, AGT5-APG-01.
46	Practical	Module 10: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S07 — Explain production techniques for selected agricultural systems and enterprises	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01.
47	Site/theory	Poultry, broilers and layers	Teach Poultry, broilers and layers; students complete the adjacent 10-question check and save a response.	S06 — Explain animal-production steps from farm gate to consumer, including traceability	Saved check feedback and source-grounded written response. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01.
48	Site/theory	A poultry supply chain and location decisions	Teach A poultry supply chain and location decisions; students complete the adjacent 10-question check and save a response.	S06 — Apply animal-welfare guidelines and regulations in enterprise management	Saved check feedback and source-grounded written response. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
49	Project/folio	Layer systems. welfare indicators and trade-offs	Apply Layer systems, welfare indicators and trade-offs; students save the check, response and selected folio evidence.	S06 — Explain animal-production steps from farm gate to consumer, including traceability	Saved check, written response and organised folio evidence. Outcomes: AGT5-USE-01, AGT5-COM-01, AGT5-SAF-01.
50	Practical	Module 11: teacher-approved practical or fieldwork 1	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S06 — Apply animal-welfare guidelines and regulations in enterprise management	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01.

Evidence, feedback and controls

Evidence and feedback: Use saved site checks, written responses, folio records and authentic practical observations. Give timely feedback and record follow-up in the delivery register.

Support and adjustments: Use visible takeaways, vocabulary, hints and scaffolded responses; adjust pace and local task demand without changing the authorised syllabus intent.

Practical controls: Use only current teacher-approved plans or tasks, local SOPs, risk controls, PPE and supervision. Stop and confirm any missing or changed condition before work continues.
