

STAGE 5 FOOD TECHNOLOGY

Food for Specific Needs | 20-period teaching program

Food selection for nutrition and health | 2027 early implementation | network review copy v2.0

Course	Stage 5 Food Technology	Syllabus	Food Technology 7-10 Syllabus (2025)
Planning map	10 weeks 20 x 60-minute planning periods	Local timetable	Teacher to confirm
Learning balance	10 Site/theory 8 Project/folio 2 Practical	Early implementation	2027 - selected by Steve
Website	Open Food for Specific Needs course site	Primary focus	Food selection for nutrition and health
Evidence inventory	5 modules 15 sections 150 checks 15 responses	Status	Local review candidate schema 1.1

Complete Stage 5 outcomes

Outcome	Exact official wording
FT5-SAF-01	applies safe work and management practices through food design and production processes
FT5-COM-01	communicates ideas, concepts and solutions in food design and production contexts
FT5-FPP-01	selects and justifies the use of food preparation and presentation practices
FT5-USE-01	selects and applies ingredients, techniques and equipment in food design and production contexts
FT5-IET-01	explains industry practices and emerging technologies used in food design and production
FT5-NSA-01	assesses how nutrition, food selection and availability influence individuals and communities
FT5-ENV-01	analyses relationships between food production systems, sustainability and society

Teacher gate before delivery

TTC-TIME: Confirm how the local timetable converts the site's ten-week/module sequence into 20 one-hour planning. • **TTC-COHORT:** Confirm the local class/cohort placement; this Stage 5 program does not prescribe a specific year group. • **TTC-MEDICAL:** Use supplied or fictional scenarios; do not request diagnoses or personal health disclosure. • **TTC-LOCAL-AUTHORITY:** Use locally authorised sources and community authority for local Aboriginal Cultural Knowledge. • **TTC-AUTHORISED-SOURCES:** Teacher selects current authorised sources before students make local cultural or health claims.

Periods 1-10 | Food for Specific Needs

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Launch specific food needs	Learn the circumstances that create specific food needs; complete the scenario sorter. Open theory Open checks	Supports: Examine physiological, psychological, social and economic factors that. cid30998cd	Saved activity and written explanation using a supplied or fictional. FT5-SAF-01, FT5-NSA-01, FT5-ENV-01 Teacher to confirm
2	Project/folio	Specific-needs brief	Turn the verified circumstance into a person-first design brief. Open theory Open folio	Supports: Examine physiological, psychological, social and economic factors that. cid30998cd	Brief checkpoint without private medical details. FT5-SAF-01, FT5-NSA-01, FT5-ENV-01
3	Site/theory	Factors shaping food choices	Analyse interacting personal, social, economic and environmental food-choice factors. Open theory Open checks	Supports: Examine physiological, psychological, social and economic factors that. cid30998cd	Choice-factor matrix and reasoned trade-off. FT5-FPP-01, FT5-USE-01, FT5-NSA-01
4	Project/folio	Meal planning for a circumstance	Develop and justify the site meal-plan proposal against the supplied need, occasion and constraints. Open theory Open folio	Contributes to: Design and create meals using alternative ingredients to meet. ci5ef08618	One-day meal-plan rationale; proposal only, not a medical guarantee. FT5-SAF-01, FT5-FPP-01, FT5-USE-01 Teacher to confirm
5	Site/theory	Culture, belief and taboos	Learn how taboos and food practices require respectful, source-bounded investigation. Open theory Open checks	Supports: Investigate food customs and practices of a specific culture cid4ba826a	Respectful claim and stereotype correction. FT5-SAF-01, FT5-ENV-01, FT5-COM-01 Teacher to confirm
6	Project/folio	Religious and ethical choices	Compare a supplied food choice with verified religious or ethical boundaries and explain what. Open theory Open folio	Contributes to: Discuss the influence of food safety. cia284889c	Ingredient/process audit and qualified recommendation. FT5-SAF-01, FT5-FPP-01, FT5-USE-01 Teacher to confirm
7	Site/theory	Evidence for respectful investigation	Use the source ladder to separate authority, evidence, inference and missing knowledge. Open theory Open checks	Supports: Create written texts to explain how food practices are influenced by. cif5819d10	Source evaluation with uncertainty visible. FT5-COM-01 Teacher to confirm
8	Site/theory	Nutrition changes through life	Learn how nutritional priorities can change across lifecycle stages without personal diagnosis. Open theory Open checks	Supports: Outline the nutritional needs of individuals and groups of people at. cifddedf76	Lifecycle map and evidence-based explanation. FT5-NSA-01, FT5-ENV-01, FT5-COM-01 Teacher to confirm
9	Site/theory	Adolescent nutrition	Use population guidance to analyse a supplied school-day pattern. Open theory Open checks	Supports: Outline the nutritional needs of individuals and groups of people at. cifddedf76	Pattern analysis using population guidance only. FT5-SAF-01, FT5-NSA-01, FT5-ENV-01 Teacher to confirm
10	Project/folio	Lifecycle meal design	Develop criteria and a meal concept for a supplied lifecycle brief. Open theory Open folio	Contributes to: Plan and safely prepare nutritious foods to meet the needs of. cie71b951	Meal concept, criteria and justification. FT5-SAF-01, FT5-FPP-01, FT5-USE-01 Teacher to confirm

Periods 11-20 | Food for Specific Needs

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site/theory	Allergy and intolerance	Distinguish allergy, intolerance and preference using supplied scenarios. Open theory Open checks	Contributes to: Compare food allergies and intolerances to determine suitable. ci5493a3bb	Scenario decisions; no disclosure of personal health information. FT5-SAF-01, FT5-NSA-01, FT5-COM-01 Teacher to confirm
12	Project/folio	Verified-management boundary	Apply the distinction to a fictional planning scenario and identify the current plan or professional. Open theory Open folio	Contributes to: Compare food allergies and intolerances to determine suitable. ci5493a3bb	Recorded stop points and authority pathway. FT5-SAF-01, FT5-NSA-01, FT5-COM-01 Teacher to confirm
13	Site/theory	Labels and cross-contact	Audit a current Australian mock or teacher-supplied label and map possible cross-contact points. Open theory Open checks	Contributes to: Outline legislative food labelling requirements cib5e4b375	Label and workflow audit using current evidence. FT5-SAF-01, FT5-FPP-01, FT5-USE-01 Teacher to confirm
14	Practical	Diagnosed-need planning	Complete the site planning package. Practical work occurs only if the teacher confirms the current. Open theory Open checks	Contributes to: Design and create meals using alternative ingredients to meet. ci5ef08618	Planning evidence; teacher observation only if an approved practical. FT5-SAF-01, FT5-FPP-01, FT5-USE-01 Teacher to confirm
15	Site/theory	Modified and fortified foods	Compare a current Australian product claim with its label evidence; complete checks and response. Open theory Open checks	Supports: Assess nutritional claims used to influence consumer choice ci8b1c20f1	Claim-versus-evidence product comparison. FT5-USE-01, FT5-NSA-01, FT5-COM-01 Teacher to confirm
16	Project/folio	Evaluate modified-food claims	Evaluate the limits of the selected claim and explain which consumer need it may or may not support. Open theory Open folio	Supports: Assess nutritional claims used to influence consumer choice ci8b1c20f1	Qualified product evaluation using current label evidence. FT5-USE-01, FT5-NSA-01, FT5-COM-01 Teacher to confirm
17	Site/theory	Dietary fibre	Use population guidance to explain fibre and improve a supplied food pattern without personal. Open theory Open checks	Contributes to: Investigate types and food sources of dietary fibre and its role. cib076410a	Pattern improvement justified with population guidance. FT5-NSA-01, FT5-COM-01 Teacher to confirm
18	Project/folio	Support networks	Map the roles and limits of family, school, health professionals. Open theory Open folio	Contributes to: Create written texts to explain how food selection supports. cide2dc849	Support-network evaluation and referral boundary. FT5-SAF-01, FT5-NSA-01, FT5-ENV-01 Teacher to confirm
19	Practical	Teacher-approved application	Apply the confirmed brief only if the teacher has approved the current recipe, labels. Open theory Open checks	Contributes to: Design and create meals using alternative ingredients to meet. ci5ef08618, cib076410a	Teacher observation if approved; otherwise planning and evaluation. FT5-SAF-01, FT5-FPP-01, FT5-USE-01 Teacher to confirm
20	Project/folio	Folio synthesis and review	Select the strongest site evidence, evaluate it against the brief and export a backup. Open theory Open folio	Contributes to: Create written texts to explain how food selection supports. cide2dc849	Completed folio export and improvement statement. FT5-SAF-01, FT5-NSA-01, FT5-ENV-01 Teacher to confirm
