

Year 10 Agriculture

Teaching program | v2.0 network benchmark

Field	Value	Field	Value
Course	Stage 5 Agriculture Technology 200-hour sequence component	Length	100 one-hour periods
Syllabus	Agriculture Technology 7–10 Syllabus (2024)	Status	planned 2027 implementation
Sequence	Periods 96–195 of the connected 200-hour master	Pattern	30 theory 10 folio 60 practical
Version	v2.0 network benchmark	Authority	Teacher to confirm before delivery

[Official syllabus](#) | [Exact outcomes](#) | [Course learning site](#)

Alignment: This v2.0 program uses the new AGT5 outcome family and is a component of the exact-content 200-hour master. Whole-course requirements remain controlled by the master and local sign-off.

How to use this program

Step	Faculty action
1	Teach the period sequence through the named learning route and retain the stated evidence.
2	Use the plain-English syllabus column for lesson intent; use the exact outcome table for formal wording.
3	Open linked theory and folio locations from the English labels in the final column.
4	Confirm timetable, practical authority, assessment conditions and faculty approval before delivery.

Outcomes and exact wording

Outcome	Exact syllabus wording	Place in this program
AGT5-SAF-01	applies production processes and safe work practices in agricultural contexts	Used across this unit and the 200-hour master
AGT5-APG-01	explains factors that influence animal and plant selection, growth and development in agricultural enterprises and systems	Used across this unit and the 200-hour master
AGT5-PRA-01	explains industry practices in agricultural enterprises and systems	Used across this unit and the 200-hour master
AGT5-ENV-01	analyses relationships between agricultural production, sustainability and consumers	Used across this unit and the 200-hour master
AGT5-IVT-01	investigates and assesses the influence of innovation and management practices on agricultural enterprises and systems	Used across this unit and the 200-hour master
AGT5-USE-01	selects and justifies the use of technologies and processes in agricultural production and systems	Used across this unit and the 200-hour master
AGT5-COM-01	communicates ideas and concepts in agricultural technology contexts	Used across this unit and the 200-hour master

Outcome codes appear beside evidence in the period tables. The teaching and syllabus columns use plain English so the learning remains the focus.

Periods 1–3

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Module 1: Australian agricultural regions and enterprise suitability; Goats, bees and pigs as diverse enterprises; Diversification, markets and sustainability decisions	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Analyse ways that consumers can influence change in plant production and distribution practices to improve sustainability, increase food security and minimise waste	Check feedback and response evidence: M01-S01, M01-S02, M01-S03. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
2	Project/folio	Module 1: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Create written texts to explain and evaluate agricultural solutions and production processes	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
3	Practical	Module 1: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Create written texts to explain and evaluate agricultural solutions and production processes	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01

Periods 4–6

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
4	Practical	Module 1: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Create written texts to explain and evaluate agricultural solutions and production processes	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
5	Practical	Module 1: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Create written texts to explain and evaluate agricultural solutions and production processes	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
6	Site/theory	Module 2: Beneficial and harmful organisms in production; The six integrated pest management strategies; Combining controls and responding to failure	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Evaluate the role of microorganisms and invertebrates and their effect on plant production	Check feedback and response evidence: M02-S01, M02-S02, M02-S03. Outcomes: AGT5-APG-01, AGT5-USE-01

Periods 7–9

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
7	Practical	Module 2: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Evaluate effects of microorganisms and invertebrates on animal production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01
8	Practical	Module 2: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Evaluate effects of microorganisms and invertebrates on animal production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01
9	Practical	Module 2: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Evaluate effects of microorganisms and invertebrates on animal production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01

Periods 10–12

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
10	Site/theory	Module 3: Reading livestock graphs and identifying trends; Comparing agricultural marketing strategies; Using trend evidence in marketing decisions	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Investigate and describe Australian agricultural production and industry trends	Check feedback and response evidence: M03-S01, M03-S02, M03-S03. Outcomes: AGT5-PRA-01, AGT5-USE-01, AGT5-COM-01
11	Project/folio	Module 3: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Outline marketing strategies used in agricultural production	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-PRA-01, AGT5-USE-01, AGT5-COM-01
12	Practical	Module 3: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Outline marketing strategies used in agricultural production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-PRA-01, AGT5-USE-01, AGT5-COM-01

Periods 13–15

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
13	Practical	Module 3: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Outline marketing strategies used in agricultural production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-PRA-01, AGT5-USE-01, AGT5-COM-01
14	Practical	Module 3: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Outline marketing strategies used in agricultural production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-PRA-01, AGT5-USE-01, AGT5-COM-01
15	Site/theory	Module 4: Clear and unbiased agricultural market surveys; Value adding agricultural products; Using consumer evidence to shape promotion and value	Read the linked learning sections; complete each 10-question check and saved response. Learning location: <u>Open theory section 1</u> <u>Open theory section 2</u> <u>Open theory section 3</u>	Investigate market specifications and availability for seasonal agricultural plant products	Check feedback and response evidence: M04-S01, M04-S02, M04-S03. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-COM-01

Periods 16–18

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
16	Practical	Module 4: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Investigate market specifications and availability for seasonal agricultural plant products	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-COM-01
17	Practical	Module 4: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Investigate market specifications and availability for seasonal agricultural plant products	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-COM-01
18	Practical	Module 4: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Investigate market specifications and availability for seasonal agricultural plant products	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-COM-01

Periods 19–21

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
19	Site/theory	Module 5: Comparing plant production systems; Comparing animal production systems and trade-offs; Term 1 topic-test preparation: describe, explain and compare	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Explain different production techniques for identified agricultural systems and enterprises	Check feedback and response evidence: M05-S01, M05-S02, M05-S03. Outcomes: AGT5-USE-01, AGT5-COM-01
20	Project/folio	Module 5: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Explain different production techniques for identified agricultural systems and enterprises	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-USE-01, AGT5-COM-01
21	Practical	Module 5: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain different production techniques for identified agricultural systems and enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-USE-01, AGT5-COM-01

Periods 22–24

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
22	Practical	Module 5: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain different production techniques for identified agricultural systems and enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-USE-01, AGT5-COM-01
23	Practical	Module 5: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain different production techniques for identified agricultural systems and enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-USE-01, AGT5-COM-01
24	Site/theory	Module 6: Fixed costs, variable costs and income; Calculating a gross margin step by step; Comparing crop scenarios and making a recommendation	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Assess factors affecting the economic viability of current and emerging agricultural industries by analysing data	Check feedback and response evidence: M06-S01, M06-S02, M06-S03. Outcomes: AGT5-IVT-01, AGT5-USE-01

Periods 25–27

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
25	Practical	Module 6: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Assess factors affecting the economic viability of current and emerging agricultural industries by analysing data	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-IVT-01, AGT5-USE-01
26	Practical	Module 6: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Assess factors affecting the economic viability of current and emerging agricultural industries by analysing data	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-IVT-01, AGT5-USE-01
27	Practical	Module 6: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Assess factors affecting the economic viability of current and emerging agricultural industries by analysing data	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-IVT-01, AGT5-USE-01

Periods 28–30

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
28	Site/theory	Module 7: Crop monitoring indicators and patterns; Crop monitoring tools and data; Evidence-based monitoring decisions and prioritisation	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Justify the selection of technologies and processes used to collect and manage data during plant production	Check feedback and response evidence: M07-S01, M07-S02, M07-S03. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
29	Project/folio	Module 7: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Justify the selection of technologies and processes used to collect and manage data during plant production	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
30	Practical	Module 7: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Justify the selection of technologies and processes used to collect and manage data during plant production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01

Periods 31–33

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
31	Practical	Module 7: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Justify the selection of technologies and processes used to collect and manage data during plant production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
32	Practical	Module 7: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Justify the selection of technologies and processes used to collect and manage data during plant production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
33	Site/theory	Module 8: Weeds and competition; Pests and monitoring; Diseases and integrated management	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Investigate plant or mixed-enterprise systems, sustainability, management and problem solving.	Check feedback and response evidence: M08-S01, M08-S02, M08-S03. Outcomes: AGT5-APG-01, AGT5-COM-01

Periods 34–36

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
34	Practical	Module 8: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
35	Practical	Module 8: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
36	Practical	Module 8: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01

Periods 37–39

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
37	Site/theory	Module 9: Meaning of sustainability and environmental risks; Grazing and ground cover; Rotation, reduced tillage and precision application	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Evaluate agricultural management practices to determine their impact on the environment and production	Check feedback and response evidence: M09-S01, M09-S02, M09-S03. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01
38	Project/folio	Module 9: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Evaluate agricultural management practices to determine their impact on the environment and production	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01
39	Practical	Module 9: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Evaluate agricultural management practices to determine their impact on the environment and production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01

Periods 40–42

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
40	Practical	Module 9: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Evaluate agricultural management practices to determine their impact on the environment and production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01
41	Practical	Module 9: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Evaluate agricultural management practices to determine their impact on the environment and production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01
42	Site/theory	Module 10: Integrated system review; Four-criteria evaluation; Careers, skills and evidence-based pathway exploration	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Investigate agricultural markets, profitability, technology and relationships with economy and society.	Check feedback and response evidence: M10-S01, M10-S02, M10-S03. Outcomes: AGT5-APG-01, AGT5-IVT-01, AGT5-COM-01

Periods 43–45

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
43	Practical	Module 10: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
44	Practical	Module 10: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
45	Practical	Module 10: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01

Periods 46–48

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
46	Site/theory	Module 11: What makes a prime lamb breeding system; Reading and constructing a prime-lamb pedigree; Reproductive technologies: concepts, benefits and limits	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Identify programs, techniques and technologies used in animal breeding	Check feedback and response evidence: M11-S01, M11-S02, M11-S03. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
47	Project/folio	Module 11: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Explain the impact of animal breeding processes on production	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
48	Practical	Module 11: teacher- authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain the impact of animal breeding processes on production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01

Periods 49–51

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
49	Practical	Module 11: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain the impact of animal breeding processes on production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
50	Practical	Module 11: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain the impact of animal breeding processes on production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
51	Site/theory	Module 12: Nutrients, digestion and energy; Matching feed to changing requirements; Estimating pasture availability and using evidence	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Investigate and explain nutritional requirements for different stages of animal production	Check feedback and response evidence: M12-S01, M12-S02, M12-S03. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01

Periods 52–54

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
52	Practical	Module 12: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Investigate and explain nutritional requirements for different stages of animal production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
53	Practical	Module 12: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Investigate and explain nutritional requirements for different stages of animal production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01
54	Practical	Module 12: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Investigate and explain nutritional requirements for different stages of animal production	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-USE-01, AGT5-COM-01

Periods 55–57

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
55	Site/theory	Module 13: A management calendar as a planning tool; Linking management decisions across the production cycle; Technology for identification, monitoring and decisions	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Investigate and describe the calendar of operations for an animal production cycle	Check feedback and response evidence: M13-S01, M13-S02, M13-S03. Outcomes: AGT5-APG-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
56	Project/folio	Module 13: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Communicate the planning and management of animal enterprises	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-APG-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
57	Practical	Module 13: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Communicate the planning and management of animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01

Periods 58–60

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
58	Practical	Module 13: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Communicate the planning and management of animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
59	Practical	Module 13: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Communicate the planning and management of animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
60	Site/theory	Module 14: Genetic change: selection, engineering and evidence; Ethical reasoning about agricultural biotechnology; Welfare-focused husbandry: needs, observations and records	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Apply a range of animal management skills and maintain appropriate records when engaging in animal enterprises	Check feedback and response evidence: M14-S01, M14-S02, M14-S03. Outcomes: AGT5-APG-01, AGT5-IVT-01

Periods 61–63

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
61	Practical	Module 14: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply a range of animal management skills and maintain appropriate records when engaging in animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-IVT-01
62	Practical	Module 14: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply a range of animal management skills and maintain appropriate records when engaging in animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-IVT-01
63	Practical	Module 14: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply a range of animal management skills and maintain appropriate records when engaging in animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-IVT-01

Periods 64–66

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
64	Site/theory	Module 15: Hazards, risks and the hierarchy of controls; Risk-assessment reasoning: hazard, consequence, control and responsibility; Farm business reasoning: costs, gross margins and SWOT	Read the linked learning sections; complete each 10-question check and saved response. Learning location: Open theory section 1 Open theory section 2 Open theory section 3	Identify risks and demonstrate safe work practices in the management of animal enterprises	Check feedback and response evidence: M15-S01, M15-S02, M15-S03. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01, AGT5-IVT-01
65	Project/folio	Module 15: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Identify risks and demonstrate safe work practices in the management of animal enterprises	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01, AGT5-IVT-01
66	Practical	Module 15: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Identify risks and demonstrate safe work practices in the management of animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01, AGT5-IVT-01

Periods 67–69

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
67	Practical	Module 15: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Identify risks and demonstrate safe work practices in the management of animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01, AGT5-IVT-01
68	Practical	Module 15: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Identify risks and demonstrate safe work practices in the management of animal enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-APG-01, AGT5-PRA-01, AGT5-IVT-01
69	Site/theory	Module 16: Dairy industry importance and breed selection	Read the named section; complete each 10-question check and saved response. Learning location: <u>Open theory section</u>	Explain animal-enterprise systems, management decisions, welfare and responsible production.	Check feedback and response evidence: M16-S01. Outcomes: AGT5-APG-01, AGT5-COM-01

Periods 70–72

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
70	Site/theory	Module 16: External dairy-cow anatomy and function	Read the named section; complete each 10-question check and saved response. Learning location: <u>Open theory section</u>	Explain animal-enterprise systems, management decisions, welfare and responsible production.	Check feedback and response evidence: M16-S02. Outcomes: AGT5-APG-01, AGT5-COM-01
71	Site/theory	Module 16: Using breed and anatomy evidence in dairy decisions	Read the named section; complete each 10-question check and saved response. Learning location: <u>Open theory section</u>	Explain animal-enterprise systems, management decisions, welfare and responsible production.	Check feedback and response evidence: M16-S03. Outcomes: AGT5-APG-01, AGT5-COM-01
72	Practical	Module 16: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01

Periods 73–75

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
73	Practical	Module 16: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
74	Practical	Module 16: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
75	Site/theory	Module 17: From raw milk to a consistent product	Read the named section; complete each 10-question check and saved response. Learning location: <u>Open theory section</u>	Explain the steps from the farm gate to the consumer in animal production enterprises	Check feedback and response evidence: M17-S01. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01, AGT5-COM-01

Periods 76–78

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
76	Site/theory	Module 17: Value adding and dairy marketing	Read the named section; complete each 10-question check and saved response. Learning location: Open theory section	Explain the steps from the farm gate to the consumer in animal production enterprises	Check feedback and response evidence: M17-S02. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01, AGT5-COM-01
77	Site/theory	Module 17: Deregulation and change in the Australian dairy industry	Read the named section; complete each 10-question check and saved response. Learning location: Open theory section	Explain the steps from the farm gate to the consumer in animal production enterprises	Check feedback and response evidence: M17-S03. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01, AGT5-COM-01
78	Project/folio	Module 17: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: Open folio section	Explain the steps from the farm gate to the consumer in animal production enterprises	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01, AGT5-COM-01

Periods 79–81

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
79	Practical	Module 17: teacher- authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain the steps from the farm gate to the consumer in animal production enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01, AGT5-COM-01
80	Practical	Module 17: teacher- authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain the steps from the farm gate to the consumer in animal production enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01, AGT5-COM-01
81	Practical	Module 17: teacher- authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Explain the steps from the farm gate to the consumer in animal production enterprises	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-USE-01, AGT5-COM-01

Periods 82–84

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
82	Site/theory	Module 18: Female reproductive anatomy and fertilisation	Read the named section; complete each 10-question check and saved response. Learning location: Open theory section	Investigate plant or mixed-enterprise systems, sustainability, management and problem solving.	Check feedback and response evidence: M18-S01. Outcomes: AGT5-APG-01, AGT5-COM-01
83	Site/theory	Module 18: Reproductive technologies and fertility evidence	Read the named section; complete each 10-question check and saved response. Learning location: Open theory section	Investigate plant or mixed-enterprise systems, sustainability, management and problem solving.	Check feedback and response evidence: M18-S02. Outcomes: AGT5-APG-01, AGT5-COM-01
84	Site/theory	Module 18: Hormonal control of the oestrous cycle	Read the named section; complete each 10-question check and saved response. Learning location: Open theory section	Investigate plant or mixed-enterprise systems, sustainability, management and problem solving.	Check feedback and response evidence: M18-S03. Outcomes: AGT5-APG-01, AGT5-COM-01

Periods 85–87

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
85	Practical	Module 18: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
86	Practical	Module 18: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
87	Practical	Module 18: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01

Periods 88–90

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
88	Site/theory	Module 19: Male reproductive anatomy and the sperm pathway	Read the named section; complete each 10-question check and saved response. Learning location: Open theory section	Investigate plant or mixed-enterprise systems, sustainability, management and problem solving.	Check feedback and response evidence: M19-S01. Outcomes: AGT5-APG-01, AGT5-COM-01
89	Site/theory	Module 19: Hormones, heat and bull fertility	Read the named section; complete each 10-question check and saved response. Learning location: Open theory section	Investigate plant or mixed-enterprise systems, sustainability, management and problem solving.	Check feedback and response evidence: M19-S02. Outcomes: AGT5-APG-01, AGT5-COM-01
90	Site/theory	Module 19: The mammary system, milk formation and colostrum	Read the named section; complete each 10-question check and saved response. Learning location: Open theory section	Investigate plant or mixed-enterprise systems, sustainability, management and problem solving.	Check feedback and response evidence: M19-S03. Outcomes: AGT5-APG-01, AGT5-COM-01

Periods 91–93

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
91	Project/folio	Module 19: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. Learning location: <u>Open folio section</u>	Collect, analyse and communicate agricultural data; evaluate management decisions and evidence.	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: AGT5-PRA-01, AGT5-USE-01, AGT5-COM-01
92	Practical	Module 19: teacher- authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
93	Practical	Module 19: teacher- authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01

Periods 94–96

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
94	Practical	Module 19: teacher- authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Apply safe plant or animal management practices and collect authentic agricultural evidence.	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-SAF-01, AGT5-PRA-01, AGT5-USE-01
95	Site/theory	Module 20: The dairy production cycle	Read the named section; complete each 10-question check and saved response. Learning location: <u>Open theory section</u>	Describe factors affecting the implementation of innovative agricultural technologies and processes	Check feedback and response evidence: M20-S01. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
96	Site/theory	Module 20: Emerging dairy technologies and evidence- based selection	Read the named section; complete each 10-question check and saved response. Learning location: <u>Open theory section</u>	Investigate and describe how emerging technologies influence changes to industry practices	Check feedback and response evidence: M20-S02. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01

Periods 97–99

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
97	Site/theory	Module 20: Careers across the dairy supply chain	Read the named section; complete each 10-question check and saved response. Learning location: <u>Open theory section</u>	Describe factors affecting the implementation of innovative agricultural technologies and processes	Check feedback and response evidence: M20-S03. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
98	Practical	Module 20: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Describe factors affecting the implementation of innovative agricultural technologies and processes	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01
99	Practical	Module 20: teacher-authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Describe factors affecting the implementation of innovative agricultural technologies and processes	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01

Period 100

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
100	Practical	Module 20: teacher- authorised practical, investigation or production block	Follow the current teacher demonstration and local procedure; record genuine observations, progress or test evidence. Learning location: Teacher-directed practical or evidence route	Describe factors affecting the implementation of innovative agricultural technologies and processes	Teacher observation and authentic practical/production record; exact method and checkpoint Teacher to confirm. Outcomes: AGT5-APG-01, AGT5-PRA-01, AGT5-ENV-01, AGT5-IVT-01, AGT5-USE-01, AGT5-COM-01

Teacher to confirm before implementation

ID	Item	Owner	Due
TTC-AGU-01	Confirm the actual timetable and period placement within the 200-hour sequence.	Faculty timetable authority	Before program approval
TTC-AGU-02	Confirm each practical method, equipment, chemical, animal-welfare, biosecurity, WHS, supervision and recordkeeping control.	Course teacher and school WHS authority	Before each practical activity
TTC-AGU-03	Confirm the current assessment program, dates, marks, rubric, adjustments and submission route.	Faculty assessment authority	Before assessment advice
TTC-AGU-04	Teach and retain evidence for every exact 2024 master overlay allocated to this unit.	Course teacher	During delivery
TTC-AGU-05	Confirm that the complete 200-hour sequence meets the enterprise, focus-area, intensive/extensive, plant/animal, collaboration and practical-majority requirements.	Course teacher and Head Teacher	Before whole-course sign-off
TTC-AGU-06	Confirm Aboriginal Community consultation, attribution and ICIP protocols before relevant Cultural content is taught.	School Aboriginal education and Community authority	Before relevant content
TTC-AGU-07	Complete faculty review and approval before representing this program as approved for local delivery.	Faculty approval authority	Before approved use

Approval record

Role	Name	Signature	Date
Course teacher			
Head Teacher / faculty authority			
WHS / practical authority as applicable
