

Year 8 Science

Teaching program | v2.0 network benchmark

Field	Value	Field	Value
Course	Year 8 component of Stage 4 mandatory Science	Length	100 one-hour periods
Syllabus	Science 7–10 Syllabus (2023)	Status	current; teaching commenced in 2026
Sequence	Year 8 component; check whole-Stage-4 coverage with the Year 7 program	Pattern	15 theory 35 folio 50 practical
Version	v2.0 network benchmark	Authority	Teacher to confirm before delivery

[Official syllabus](#) | [Exact outcomes](#) | [Course learning site](#)

Alignment: This v2.0 network program retains the existing Year 8 learning sequence, uses the current SC4 outcome family and makes the Year 7 + Year 8 whole-stage boundary explicit.

How to use this program

Step	Faculty action
1	Teach the period sequence through the named learning route and retain the stated evidence.
2	Use the plain-English syllabus column for lesson intent; use the exact outcome table for formal wording.
3	Open theory and module evidence from the bold English links in Teaching and learning.
4	Confirm timetable, practical authority, assessment conditions and faculty approval before delivery.

Outcomes and exact wording

Outcome	Exact syllabus wording	Place in this program
SC4-WS-01	uses scientific tools and instruments for observations	Selected in this Year 8 program
SC4-WS-02	identifies questions and makes predictions to guide scientific investigations	Selected in this Year 8 program
SC4-WS-03	plans safe and valid investigations	Selected in this Year 8 program
SC4-WS-04	follows a planned procedure to undertake safe and valid investigations	Selected in this Year 8 program
SC4-WS-05	uses a variety of ways to process and represent data	Selected in this Year 8 program
SC4-WS-06	uses data to identify trends, patterns and relationships, and draw conclusions	Selected in this Year 8 program
SC4-WS-07	identifies problem-solving strategies and proposes solutions	Selected in this Year 8 program
SC4-WS-08	communicates scientific concepts and ideas using a range of communication forms	Selected in this Year 8 program
SC4-OTU-01	explains how observations are used by scientists to increase knowledge and understanding of the Universe	Whole-Stage-4 coverage check with Year 7
SC4-FOR-01	describes the effects of forces in everyday contexts	Whole-Stage-4 coverage check with Year 7
SC4-CLS-01	describes the unique features of cells in living things and how structural features can be used to classify organisms	Whole-Stage-4 coverage check with Year 7
SC4-SOL-01	explains how the properties of substances enable separation in a range of techniques	Whole-Stage-4 coverage check with Year 7
SC4-LIV-01	describes the role, structure and function of a range of living systems and their components	Selected in this Year 8 program
SC4-PRT-01	explains how uses of elements and compounds are influenced by scientific understanding and discoveries relating to their properties	Selected in this Year 8 program
SC4-CHG-01	explains how energy causes geological and chemical change	Selected in this Year 8 program
SC4-DA1-01	explains how data is used by scientists to model and predict scientific phenomena	Selected in this Year 8 program

Outcome codes appear beside evidence in the period tables. The teaching and syllabus columns use plain English so the learning remains the focus.

Periods 1–6

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Module 1: Data sources, digital traces and safe engagement	Read the linked learning section; complete each 10-question check and saved response. <u>Open theory section</u>	Collect, process and represent data; identify patterns, limitations and evidence-based conclusions.	Check feedback and response evidence: M01-S01. Outcomes: SC4-DA1-01, SC4-WS-06, SC4-WS-07
2	Site/theory	Module 1: Scientific questions and collecting datasets	Read the linked learning section; complete each 10-question check and saved response. <u>Open theory section</u>	Collect, process and represent data; identify patterns, limitations and evidence-based conclusions.	Check feedback and response evidence: M01-S02. Outcomes: SC4-DA1-01, SC4-WS-06, SC4-WS-07
3	Site/theory	Module 1: Analysing datasets, patterns and solutions	Read the linked learning section; complete each 10-question check and saved response. <u>Open theory section</u>	Collect, process and represent data; identify patterns, limitations and evidence-based conclusions.	Check feedback and response evidence: M01-S03. Outcomes: SC4-DA1-01, SC4-WS-06, SC4-WS-07
4	Project/folio	Module 1: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. <u>Open module evidence</u>	Collect, process and represent data; identify patterns, limitations and evidence-based conclusions.	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: SC4-DA1-01, SC4-WS-06, SC4-WS-07
5	Project/folio	Module 1: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. <u>Open module evidence</u>	Collect, process and represent data; identify patterns, limitations and evidence-based conclusions.	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: SC4-DA1-01, SC4-WS-06, SC4-WS-07
6	Project/folio	Module 1: consolidate folio and project evidence	Review saved responses; organise evidence, feedback and evaluation against the current teacher direction. <u>Open module evidence</u>	Collect, process and represent data; identify patterns, limitations and evidence-based conclusions.	Folio entry, source record, planning/evaluation note or depth-study evidence as applicable. Outcomes: SC4-DA1-01, SC4-WS-06, SC4-WS-07

Periods 7–12

Teacher to confirm before implementation

ID	Item	Owner	Due
TTC-SCI-01	Confirm the actual timetable and period placement.	Faculty timetable authority	Before program approval
TTC-SCI-02	Confirm every investigation, practical method, equipment, chemical, WHS, supervision and evidence checkpoint.	Course teacher and school WHS authority	Before each investigation
TTC-SCI-03	Confirm that at least 50% of course time is delivered as genuine scientific investigation time, not practical-labelled time alone.	Course teacher and Head Teacher	Before final approval
TTC-SCI-04	Confirm and identify the required Year 8 depth study, duration, evidence and assessment relationship.	Faculty curriculum authority	Before delivery
TTC-SCI-05	Confirm the current assessment program, dates, marks, rubric, adjustments and submission route.	Faculty assessment authority	Before assessment advice
TTC-SCI-06	Check the Year 7 program so all 16 Stage 4 outcomes and required content are covered across the stage.	Stage 4 program coordinator	Before whole-stage sign-off
TTC-SCI-07	Complete faculty review and approval before representing this program as approved for local delivery.	Faculty approval authority	Before approved use
