

STAGE 4 TECHNOLOGY MANDATORY

The Riv Burger | 25-period teaching program

Food and agricultural practices | Syllabus-aligned network review copy v2.4

Course	Stage 4 Technology Mandatory	Syllabus	Technology 7-8 Syllabus (2023)
Delivery	10 weeks 25 x 60-minute periods	Pattern	5 periods per fortnight
Lesson balance	7 Site/theory 10 Project/folio 8 Practical	Implementation	Current and mandatory from 2026
Official source	NSW Curriculum official page verified 28 Aug 2026	Focus	Food and agricultural practices
Status	Local review copy matching Word, PDF and manifest v2.4	Approval	Teacher to confirm before delivery
Complete Stage 4 outcomes appear below. Period rows identify the outcomes directly supported by each lesson; this does not claim that every outcome is formally assessed in this unit.			

Official Stage 4 outcomes

Outcome	Exact official wording	Outcome	Exact official wording
TE4-SDP-01	explains relationships between sustainability, design and production	TE4-DES-01	communicates and evaluates design ideas and solutions
TE4-PDP-01	describes the practices and processes of designers and producers	TE4-SAF-01	selects and safely uses tools, materials, technologies and processes
TE4-MSG-01	explains how materials, systems and components contribute to solutions	TE4-DIG-01	demonstrates technological literacy to safely interact in digital environments
TE4-PPM-01	applies processes in the planning, management and production of projects	TE4-DIG-02	uses data and digital systems to code, design and produce projects

What students are learning

Learning focus	In plain English	Learning focus	In plain English
Sustainability, design and production	Explain how design and production choices affect sustainability.	Design communication and evaluation	Communicate ideas and judge solutions against criteria.
Designers and producers	Describe how people investigate, plan, make and improve solutions.	Safe practical work	Choose and use approved tools, materials, technologies and processes safely.
Materials, systems and components	Explain how parts, materials and systems affect how a solution works.	Safe digital literacy	Work safely and responsibly in digital environments.
Project planning and production	Plan, manage and produce the project in a clear sequence.	Data, coding and digital systems	Use data or digital systems where they support the unit's design and production.

Teacher-to-confirm register

When	Decision needed	Confirm by
Before the unit	Timetable, lesson order, class supports and approved adjustments	Teacher / faculty
Before practical work	Activity, materials, equipment, supervision and current risk controls	Teacher / faculty
Before assessment	Task authority, marks, dates, conditions and submission method	Teacher / faculty
Before classroom issue	Current links, program version and any local sequence changes	Teacher / faculty

Teaching program | Periods 1-10

10 x 60-minute lessons. Text is 9.5 pt and wraps within each cell.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
1	<u>Site/theory</u>	Launch the design challenge	Teach Design situation and brief and Users and needs. Complete both knowledge checks and guided responses.	Food-practice design factors Outcomes: TE4-DES-01, TE4-PDP-01	Check two knowledge checks, two guided responses and initial design notes
2	<u>Project/folio</u>	Design brief and criteria	Teach Criteria and constraints. Complete its check and response; model a brief; finish Brief and criteria studio.	Critical and creative thinking for quality solutions Outcomes: TE4-DES-01, TE4-PPM-01	Check the completed knowledge check, approved brief and workable criteria
3	<u>Site/theory</u>	Food safety	Teach Personal hygiene and Cross-contamination. Complete both knowledge checks and guided responses.	Safe use of tools, technologies and processes Outcomes: TE4-SAF-01, TE4-PDP-01	Check two knowledge checks, hygiene routine and cross-contamination controls
4	Practical	Foundation safety practical	Teach Hazards and controls; complete its check and response. Run an approved safety demonstration or practical.	Practical skills with equipment, tools and processes Outcomes: TE4-SAF-01, TE4-PPM-01	Check the hazard response and readiness; observe safe setup and tool use
5	<u>Project/folio</u>	Folio and readiness checkpoint	Finish Brief and criteria studio or Safety scenario lab. Check folio, saved evidence and practical readiness; catch up unfinished work.	Documenting food-project design processes Outcomes: TE4-DES-01, TE4-PPM-01	Check the folio is set up and challenge and safety evidence is complete
6	<u>Site/theory</u>	Tools, workflow and mise en place	Teach Mise en place and Selecting tools. Complete both knowledge checks and guided responses.	Selecting and justifying tools, techniques and processes Outcomes: TE4-SAF-01, TE4-PDP-01	Check two knowledge checks, justified tool choices and organised setup
7	Practical	Tools and workflow practical	Teach A clean workflow; complete its check and response. Run an approved tools and workflow practical.	Safe practical use of tools and processes Outcomes: TE4-SAF-01, TE4-PPM-01	Check the workflow response; observe safe sequencing and clean-down
8	<u>Site/theory</u>	Burger anatomy and sensory quality	Teach A layered food system and Sensory properties. Complete both knowledge checks and guided responses.	Food characteristics and properties Outcomes: TE4-MSC-01, TE4-PDP-01	Check two knowledge checks, labelled layer roles and sensory profile
9	Practical	Product analysis or sensory practical	Teach Function and stability; complete its check and response. Run an approved analysis or sensory practical.	Ingredient selection and preparation for nutrition Outcomes: TE4-SAF-01, TE4-PPM-01	Check the knowledge check, sensory profile and stability explanation
10	<u>Project/folio</u>	Layer plan	Complete Burger deconstruction lab. Use learning about layers, sensory properties, function and stability to justify the plan.	Design factors used to evaluate food solutions Outcomes: TE4-DES-01, TE4-PPM-01	Check a labelled layer plan with reasons for the chosen order
Teacher to confirm before use: Periods 1-10 practical activities, materials, equipment, supervision and current risk controls.					

Teaching program | Periods 11-20

10 x 60-minute lessons. Text is 9.5 pt and wraps within each cell.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
11	<u>Site/theory</u>	Ingredients and agriculture	Teach From primary production to plate and Local and seasonal choices. Complete both checks and responses.	Food production, harvesting, packaging and distribution Outcomes: TE4-SDP-01, TE4-PDP-01	Check two knowledge checks and an accurately traced ingredient journey
12	<u>Project/folio</u>	Ingredient research	Teach Ethical and environmental factors; complete its check and response. Research origins and finish Ingredient journey investigation.	Production and distribution technologies Outcomes: TE4-DES-01, TE4-PPM-01	Check the completed knowledge check and ingredient journey with source links
13	<u>Site/theory</u>	Develop design ideas	Teach Divergent thinking and Annotating concepts. Complete both knowledge checks and guided responses.	Critical and creative thinking for quality solutions Outcomes: TE4-DES-01, TE4-PDP-01	Check two knowledge checks and clearly annotated design concepts
14	<u>Project/folio</u>	Concepts and selection	Teach Choosing with evidence; complete its check and response. Create four concepts and justify one in Four-concept design studio.	Documenting and communicating design processes Outcomes: TE4-DES-01, TE4-PPM-01	Check the knowledge check, four distinct concepts and reasoned selection
15	Practical	Component or recipe trial	Run a teacher-approved component or recipe trial; record observations and changes against the selected criteria.	Food-preparation techniques and production skills Outcomes: TE4-SAF-01, TE4-PPM-01	Check the trial record, observations and reasons for each change
16	<u>Site/theory</u>	Garden and herbs	Teach What plants need and Growing and harvesting herbs. Complete both knowledge checks and guided responses.	Community food initiatives and sustainable resources Outcomes: TE4-SDP-01, TE4-MSA-01	Check two knowledge checks and plant and herb explanations
17	Practical	Garden observation or alternative	Teach Sustainability in practice; complete its check and response. Complete the approved garden task or teacher-supplied alternative.	Agricultural practices, quality and waste reduction Outcomes: TE4-SAF-01, TE4-PPM-01	Check the knowledge check and an observation linking action with effect
18	<u>Project/folio</u>	Final recipe and food order	Teach A production-ready recipe and Food order and resources. Complete both checks and responses, then use Production planner.	Documenting food-production design processes Outcomes: TE4-DES-01, TE4-PPM-01	Check two knowledge checks, final recipe and complete food order
19	<u>Project/folio</u>	Workplan and approval	Teach Workplan; complete its check and response. Add timing, tools, resources and quality checks to Production planner; obtain approval.	Justifying equipment, tools and processes Outcomes: TE4-DES-01, TE4-PPM-01	Check the knowledge check and teacher-approved production plan
20	Practical	Production rehearsal or trial	Run an approved rehearsal or trial; monitor timing and quality, then update the recipe, food order and workplan.	Testing, modifying and improving food products Outcomes: TE4-SAF-01, TE4-PPM-01	Check the revised recipe, resource list and workplan after the trial
Teacher to confirm before use: Periods 11-20 practical activities, materials, equipment, supervision and current risk controls.					

Teaching program | Periods 21-25

5 x 60-minute lessons. Text is 9.5 pt and wraps within each cell.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
21	Project/folio	Final practical preparation	Teach Follow, monitor, adapt; complete its check and response. Check recipe, roles, resources and safety; start Production evidence log.	Production planning and safe processes Outcomes: TE4-DES-01, TE4-PPM-01	Check the knowledge check and readiness approval before production
22	Practical	Final production - block A	Teach Quality control; complete its check and response. Begin production using the approved recipe and workplan.	Practical skills with equipment, tools and techniques Outcomes: TE4-SAF-01, TE4-PPM-01	Check the knowledge check; observe safe process, timing and quality control
23	Practical	Final production - block B	Teach Presentation and evidence; complete its check and response. Finish, present, photograph and clean down; pair with Period 22 if approved.	Testing, improving and evaluating the food product Outcomes: TE4-SAF-01, TE4-PPM-01	Check the knowledge check, finished burger, photographs and clean-down
24	Project/folio	Evaluate and respond to feedback	Teach Evaluate against criteria and Consider the whole solution. Complete both checks and responses; start Evaluation builder.	Design factors used to evaluate solution quality Outcomes: TE4-DES-01, TE4-PPM-01	Check two knowledge checks and evaluation against the stated criteria
25	Project/folio	Complete and submit the folio	Teach Reflect and improve; complete its check and response. Finish Evaluation builder, audit evidence, back up and submit as directed.	Written documentation of food-production processes Outcomes: TE4-DES-01, TE4-PPM-01	Check the knowledge check, complete backed-up folio and specific improvements
Teacher to confirm before use: Periods 21-25 practical activities, materials, equipment, supervision and current risk controls.					

Evidence, feedback and support

Evidence	Look for	Respond / support
Theory and module work	Understanding and use of key ideas	Return to the named section and model one stronger response
Project and folio	Design decisions, planning and refinement	Conference against criteria and give one clear next step
Practical observation	Safety, workflow, skill, quality and clean-down	Pause, demonstrate and recheck before continuing
Product and evaluation	Quality and evidence-based judgement	Compare the result with the original criteria
