

STAGE 5 INDUSTRIAL TECHNOLOGY - TIMBER INDUSTRY | 200-HOUR ELECTIVE

Bedside Table | 50-period teaching program

Industrial Technology 7-10 Syllabus (2025) | Syllabus-aligned network review copy v2.1

Course	Stage 5 Industrial Technology - Timber industry 200-hour elective	Syllabus	Industrial Technology 7-10 Syllabus (2025)
Delivery	2027 early implementation 20 weeks	Timetable	50 x 60-minute periods
Pattern	5 periods per fortnight	Lesson balance	10 Site/theory 10 Project/folio 30 Practical
Master placement	Core substantial project; supplied master indicates approximately 20 weeks	Implementation	School-selected early use in 2027; official start 2028
Official source	NSW Curriculum official page verified 29 Aug 2026	Focus	Timber industry + Project development
Status	Standalone project program Word, PDF and schema manifest v2.1	Approval	Teacher to confirm before delivery
Complete substantial project program and Stage 5 site benchmark. Complete official outcomes appear below; period rows keep plain-English syllabus content first and codes secondary.			

Official Stage 5 outcomes

Outcome	Exact official wording	Outcome	Exact official wording
INT5-SAF-01	applies risk management and safe work practices in industrial technology contexts	INT5-EVL-01	evaluates the functional, aesthetic, economic and environmental qualities of products
INT5-COM-01	communicates ideas and processes in industrial technology contexts	INT5-INP-01	analyses and applies a range of industrial processes in production contexts
INT5-ENV-01	assesses the impact of industrial activities and practices on society and the environment	INT5-PRO-01	demonstrates practical skills in the production of projects
INT5-DES-01	selects and applies design, project management and technical skills in project production	INT5-IND-01	investigates and explains a range of industry careers, enterprise opportunities and practices
INT5-USE-01	selects and justifies the use of materials, tools and equipment to undertake projects		

What students are learning

Learning focus	In plain English	Learning focus	In plain English
Safe work practices	Manage risks and work safely in industrial technology contexts.	Evaluation	Evaluate function, appearance, cost and environmental qualities.
Communication	Communicate project ideas, decisions, processes and evidence clearly.	Industrial processes	Analyse and apply suitable industrial processes in production.
Society and environment	Assess how industrial activities affect people, society and the environment.	Project production	Demonstrate practical skills while producing quality projects.
Design and project management	Select and apply design, planning, management and technical skills.	Industry and careers	Investigate timber-industry practices, enterprise and career opportunities.
Materials, tools and equipment	Select and justify suitable materials, tools and equipment.		

Teaching program | Periods 1-10

10 x 60-minute lessons. Linked labels open the exact live theory, check and folio destinations.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
1	Site / theory	Weeks 1-2 website	<u>Understanding the project brief and success criteria; Reading the project plans accurately</u> · Check: <u>Weeks 1–2 knowledge checks</u> (Q1-4) · 2 guided responses.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
2	Project / folio	Weeks 1-2	<u>How the bedside table carries load and stays stable; Workshop safety and risk controls</u> · Check: <u>Weeks 1–2 knowledge checks</u> (Q5-8) · 1 guided response · Folio: evidence + next step.	The principles of risk management and implement risk-reduction procedures · INT5-SAF-01 Safe workshop practices and procedures when using materials, tools and equipment in timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Personal protective equipment (PPE) when working with tools, materials and machines · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Folio evidence, decision and next step.
3	Practical	Weeks 1-2	Before practical · <u>Design criteria, sketches and approved choices; Datums, face side, face edge and matched components</u> · Check: <u>Weeks 1–2 knowledge checks</u> (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
4	Practical	Weeks 1-2	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
5	Practical	Weeks 1-2	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
6	Site / theory	Weeks 3-4 website	<u>Working drawings, dimensions and component orientation; From working drawing to cutting list</u> · Check: <u>Weeks 3–4 knowledge checks</u> (Q1-4) · 2 guided responses.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
7	Project / folio	Weeks 3-4	<u>Timber selection, grain direction and defects; Preparing timber with the FEWTEL sequence</u> · Check: <u>Weeks 3–4 knowledge checks</u> (Q5-8) · 1 guided response · Folio: evidence + next step.	Appropriate timbers for the construction of timber products · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Timber using appropriate hand tools and machines · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Folio evidence, decision and next step.
8	Practical	Weeks 3-4	Before practical · <u>Matching visible components and grain orientation; Labelling, checking and hold points before joinery</u> · Check: <u>Weeks 3–4 knowledge checks</u> (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
9	Practical	Weeks 3-4	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
10	Practical	Weeks 3-4	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes • INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
Teacher to confirm: Periods 1-10 timing, practical authority, supports, evidence checks and assessment conditions.					

Teaching program | Periods 11-20

10 x 60-minute lessons. Linked labels open the exact live theory, check and folio destinations.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
11	Site / theory	Weeks 5-6 website	Frame components and the structural load path; How a mortise-and-tenon joint works · Check: Weeks 5–6 knowledge checks (Q1-4) · 2 guided responses.	Carcase, framing and box joints including rebates, housings, dovetails, bridles and mortice-and-tenon · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
12	Project / folio	Weeks 5-6	Hollow-chisel mortiser: set-up, control and test pieces; Marking and shaping matched tapered legs · Check: Weeks 5–6 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Test and evaluate the suitability of materials and the effectiveness of tools, equipment and processes · INT5-DES-01, INT5-EVL-01, INT5-ENV-01 Drawings, jigs or templates, relevant to the project, in the manufacture of components and assemblies · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Folio evidence, decision and next step.
13	Practical	Weeks 5-6	Before practical · Shaping the broad curved front apron; Controlled cutting, joint refinement and quality gates · Check: Weeks 5–6 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Appropriate hand tools, power tools and machines for cutting, shaping and detailing timber · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
14	Practical	Weeks 5-6	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
15	Practical	Weeks 5-6	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
16	Site / theory	Weeks 7-8 website	Dry fitting is a diagnostic test; Assembly order is a design decision · Check: Weeks 7–8 knowledge checks (Q1-4) · 2 guided responses.	Factors that shape a project design and its specifications · INT5-DES-01, INT5-EVL-01, INT5-ENV-01	Website responses and guided response.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
17	Project / folio	Weeks 7-8	Adhesive selection and conditions for a strong bond; Clamping pressure, pads and squareness · Check: Weeks 7–8 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Assemble parts and components using fixings, adhesives or clamps to make timber products · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Selecting and recording the materials, equipment and processes used in a project · INT5-DES-01, INT5-INP-01, INT5-PRO-01 Project management strategies when developing projects · INT5-DES-01, INT5-INP-01, INT5-PRO-01	Folio evidence, decision and next step.
18	Practical	Weeks 7-8	Before practical · Reading diagonals, twist and racking; Glue clean-up, curing and hold points · Check: Weeks 7–8 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate timber marking-out tools, processes and equipment · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Quality checks to assess timbers and components for defects before, during and after production · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Skills and processes to make quality projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 Techniques to ensure the precision and quality of components · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
19	Practical	Weeks 7-8	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
20	Practical	Weeks 7-8	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
Teacher to confirm: Periods 11-20 timing, practical authority, supports, evidence checks and assessment conditions.					

Teaching program | Periods 21-30

10 x 60-minute lessons. Linked labels open the exact live theory, check and folio destinations.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
21	Site / theory	Weeks 9-10 website	<u>Follow the approved storage design; Clearances, reveals and fit</u> · Check: <u>Weeks 9–10 knowledge checks</u> (Q1-4) · 2 guided responses.	Design factors and project specifications · INT5-DES-01, INT5-EVL-01, INT5-ENV-01	Website responses and guided response.
22	Project / folio	Weeks 9-10	<u>Constructing a square drawer or approved component; Aligning the visible front or approved face</u> · Check: <u>Weeks 9–10 knowledge checks</u> (Q5-8) · 1 guided response · Folio: evidence + next step.	Written texts to document, reflect on and evaluate project development, production and management processes · INT5-COM-01	Folio evidence, decision and next step.
23	Practical	Weeks 9-10	Before practical · <u>Pilot holes, hardware alignment and controlled adjustment; Functional testing and fault diagnosis</u> · Check: <u>Weeks 9–10 knowledge checks</u> (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01 A range of hardware components and their function for application in timber projects · INT5-USE-01, INT5-ENV-01	Approved setup, process, skill, quality and clean-down.
24	Practical	Weeks 9-10	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
25	Practical	Weeks 9-10	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
26	Site / theory	Weeks 11-12 website	<u>Aligning the thick top accurately; Why solid timber moves across the grain</u> · Check: <u>Weeks 11–12 knowledge checks</u> (Q1-4) · 2 guided responses.	Techniques to ensure the precision and quality of components · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
27	Project / folio	Weeks 11-12	<u>Using the approved top-fixing method; Final hardware checks</u> · Check: <u>Weeks 11–12 knowledge checks</u> (Q5-8) · 1 guided response · Folio: evidence + next step.	Document, reflect on and evaluate project development · INT5-COM-01	Folio evidence, decision and next step.
28	Practical	Weeks 11-12	Before practical · <u>Diagnosing a top that rocks, cups or sits unevenly; Final assembly tolerances and quality gates</u> · Check: <u>Weeks 11–12 knowledge checks</u> (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
29	Practical	Weeks 11-12	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
30	Practical	Weeks 11-12	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
Teacher to confirm: Periods 21-30 timing, practical authority, supports, evidence checks and assessment conditions.					

Teaching program | Periods 31-40

10 x 60-minute lessons. Linked labels open the exact live theory, check and folio destinations.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
31	Site / theory	Weeks 13-14 website	Inspect before sanding; Abrasive grit, scratch pattern and grain direction · Check: Weeks 13–14 knowledge checks (Q1-4) · 2 guided responses.	Hand tools, power tools, machinery, chemicals and abrasives to prepare timber surfaces for the application of finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
32	Project / folio	Weeks 13-14	Sanding tapered legs, curves and edges without changing shape; Defect repair and glue residue · Check: Weeks 13–14 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Assembly using fixings, adhesives or clamps · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Folio evidence, decision and next step.
33	Practical	Weeks 13-14	Before practical · Final surface inspection with raking light and touch; Dust control, clean-up and pre-finish quality assurance · Check: Weeks 13–14 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
34	Practical	Weeks 13-14	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
35	Practical	Weeks 13-14	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
36	Site / theory	Weeks 15-16 website	Follow the approved finish system; Applying a timber finish evenly · Check: Weeks 15–16 knowledge checks (Q1-4) · 2 guided responses.	Working environments for the production, finishing and assembly of timber products · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Website responses and guided response.
37	Project / folio	Weeks 15-16	Drying, curing, handling and between-stage preparation; Chemical safety · Check: Weeks 15–16 knowledge checks (Q5-8) · 1 guided response · Folio: evidence + next step.	Risk management and risk-reduction procedures · INT5-SAF-01	Folio evidence, decision and next step.
38	Practical	Weeks 15-16	Before practical · Using the label, SDS and hierarchy of controls; Sustainable practice and responsible waste handling · Check: Weeks 15–16 knowledge checks (Q9-12) · 1 guided response · Then teacher-approved practical.	Accurate measuring and marking-out for timber projects · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Approved setup, process, skill, quality and clean-down.
39	Practical	Weeks 15-16	Continue the approved stage; follow the plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures · INT5-SAF-01	Approved setup, process, skill, quality and clean-down.
40	Practical	Weeks 15-16	Record a checkpoint photo and problem/response; check quality; clean down.	Prepare timber surfaces for finishes · INT5-PRO-01, INT5-INP-01, INT5-USE-01	Checkpoint photo, quality note and problem response.
Teacher to confirm: Periods 31-40 timing, practical authority, supports, evidence checks and assessment conditions.
