

Fishing Rod Holder | 50-period teaching program

Stage 5 Industrial Technology - Metal industry | Faculty-ready default | v2.1

Duration	50 x 60-minute periods 20 weeks	Pattern	5 periods per fortnight
Balance	{'Site/theory': 10, 'Project/folio': 10, 'Practical': 30}	Status	Faculty-ready default; local controls to confirm
Syllabus	Industrial Technology 7-10 Syllabus (2025)	Implementation	Early use permitted; mandatory from 2028
Project site	Linked below in plain English	Program version	v2.1

Official authority: Industrial Technology 7-10 Syllabus (2025). Practical work is controlled by the current teacher-issued plan, local induction, demonstrations, SOPs, SDSs, PPE, supervision and risk controls. **Open the Fishing Rod Holder course site**

Exact Stage 5 outcomes

Outcome	Exact official wording
INT5-SAF-01	applies risk management and safe work practices in industrial technology contexts
INT5-COM-01	communicates ideas and processes in industrial technology contexts
INT5-ENV-01	assesses the impact of industrial activities and practices on society and the environment
INT5-DES-01	selects and applies design, project management and technical skills in project production
INT5-USE-01	selects and justifies the use of materials, tools and equipment to undertake projects
INT5-EVL-01	evaluates the functional, aesthetic, economic and environmental qualities of products
INT5-INP-01	analyses and applies a range of industrial processes in production contexts
INT5-PRO-01	demonstrates practical skills in the production of projects
INT5-IND-01	investigates and explains a range of industry careers, enterprise opportunities and practices

Teacher to confirm before use

ID	Confirm	Owner
TTC-METAL-01	Confirm the local timetable pattern and delivery dates against this five-period-per-fortnight default.	Program coordinator / faculty
TTC-METAL-02	Confirm assessment tasks, dates, weightings, submission method, adjustments and reporting requirements.	Program coordinator / faculty
TTC-METAL-03	Confirm current teacher-issued project plans, permitted variations, induction, SOPs, SDSs, PPE, supervision, equipment permissions, risk controls and practical observation criteria.	Class teacher / faculty
TTC-METAL-05	Confirm the two syllabus-learning.html integration routes are present and approved before document release.	Website integrator / program coordinator

Teaching program | Fishing Rod Holder | Periods 1–5

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Module 1: Workshop systems and risk management	Read and discuss the named website theory: Risk management is a process, not a poster; Safe workshop practices. Complete the linked knowledge check and record a short application response. Theory: Risk management is a process, not a poster Theory: Safe workshop practices Knowledge check: Workshop systems and risk management Syllabus learning	Recognise and comply with work health and safety (WHS) documentation and signage, and follow WHS rules when... Official content Outline the principles of risk management and implement risk-reduction procedures Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-SAF-01, INT5-DES-01	Named theory/check record — Module 1: Risk management is a process, not a poster; Safe workshop practices INT5-COM-01, INT5-ENV-01, INT5-SAF-01, INT5-DES-01
2	Project/folio	Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 1 Project folio	Identify sustainable materials, technologies and practices when designing projects Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01	Folio checkpoint 1 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01
3	Practical	Metal skills studio: safe setup evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: safe setup evidence Project production evidence	Perform safe set-up of tools and equipment, relevant to the project, including inspecting and adjusting... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-authorised setup inspection and adjustment record covering only locally approved tools/equipment; SOP, SDS, speed/feed or fume-control requirements remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
4	Practical	Select and use personal protective equipment (PPE) when working with...	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence Project production evidence	Select and use personal protective equipment (PPE) when working with tools, materials and machines Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Select and use personal protective equipment (PPE) when working with... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
5	Practical	Use drawings, jigs or templates, relevant to the project, in the...	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence Project production evidence	Use drawings, jigs or templates, relevant to the project, in the manufacture of components and assemblies Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Use drawings, jigs or templates, relevant to the project, in the... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 6–10

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
6	Site/theory	Module 1: Workshop systems and risk management	Read and discuss the named website theory: Incident response and reporting. Complete the linked knowledge check and record a short application response. Theory: Incident response and reporting Knowledge check: Workshop systems and risk management Syllabus learning	Investigate materials, technologies, sustainable development and Practices used to inform design solutions by... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-DES-01, INT5-USE-01	Named theory/check record — Module 1: Incident response and reporting INT5-COM-01, INT5-IND-01, INT5-DES-01, INT5-USE-01
7	Project/folio	Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 2 Project folio	Prepare materials lists and calculate quantities and costs when making projects Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01	Folio checkpoint 2 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01
8	Practical	Metal skills studio: stock-form cutting evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: stock-form cutting evidence	Apply techniques using equipment for the cutting, shaping and forming of sheet metal and metal sections... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-authorised cutting/shaping/forming performance samples across the locally approved stock forms; equipment, samples, SOPs and permission remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
9	Practical	Module 1: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 2B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
10	Practical	Apply technical skill to refine and make quality projects	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence Project production evidence	Apply technical skill to refine and make quality projects Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Apply technical skill to refine and make quality projects — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 11–15

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site/theory	Module 2: Fishing Rod Holder brief, materials and planning	Read and discuss the named website theory: Choose metal for the job; The Fishing Rod Holder brief and production context. Complete the linked knowledge check and record a short application response. Theory: Choose metal for the job Theory: The Fishing Rod Holder brief and production context Knowledge check: Fishing Rod Holder brief, materials and planning Syllabus learning	Investigate the sources, mining, refining and processing of ores for the production of metal products Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01	Named theory/check record — Module 2: Choose metal for the job; The Fishing Rod Holder brief and production context INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01
12	Project/folio	Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 3 Project folio	Use digital technologies to develop and communicate ideas Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01 Prepare working environments for the production, finishing and assembly of metal products Official content	Folio checkpoint 3 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
13	Practical	Prepare working environments for the production, finishing and assembly...	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence Project production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-ENV-01	Prepare working environments for the production, finishing and assembly... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-ENV-01
14	Practical	Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
15	Practical	Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 16–20

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
16	Site/theory	Module 2: Fishing Rod Holder brief, materials and planning	Read and discuss the named website theory: Design and project planning; Read the Fishing Rod Holder components drawing. Complete the linked knowledge check and record a short application response. Theory: Design and project planning Theory: Read the Fishing Rod Holder components drawing Knowledge check: Fishing Rod Holder brief, materials and planning Syllabus learning	Investigate sustainable practices in the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 2: Design and project planning; Read the Fishing Rod Holder components drawing INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
17	Project/folio	Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 4	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 4 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
18	Practical	Module 2: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
19	Practical	Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
20	Practical	Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 21–25

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
21	Site/theory	Module 3: Mark, cut and form accurately	Read and discuss the named website theory: Accuracy before force; Marking and measuring tools. Complete the linked knowledge check and record a short application response. Theory: Accuracy before force Theory: Marking and measuring tools Knowledge check: Mark, cut and form accurately Syllabus learning	Identify the types and forms of metal used for sheet metal, machining and fabrication including specific... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01	Named theory/check record — Module 3: Accuracy before force; Marking and measuring tools INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01
22	Project/folio	Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 5	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 5 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
23	Practical	Module 3: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
24	Practical	Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
25	Practical	Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 26–30

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
26	Site/theory	Module 3: Mark, cut and form accurately	Read and discuss the named website theory: Cutting and forming sequence. Complete the linked knowledge check and record a short application response. Theory: Cutting and forming sequence Knowledge check: Mark, cut and form accurately Syllabus learning	Identify a range of hardware components and their functions for application in metal projects Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-USE-01	Named theory/check record — Module 3: Cutting and forming sequence INT5-COM-01, INT5-IND-01, INT5-USE-01
27	Project/folio	Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 6	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 6 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
28	Practical	Module 3: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
29	Practical	Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
30	Practical	Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 31–35

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
31	Site/theory	Module 4: Join, machine and finish with purpose	Read and discuss the named website theory: A joint is a design decision; Machining is permission-based. Complete the linked knowledge check and record a short application response. Theory: A joint is a design decision Theory: Machining is permission-based Knowledge check: Join, machine and finish with purpose Syllabus learning	Evaluate the impact of manufacturing processes on the quality of finished metal products Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01, INT5-INP-01	Named theory/check record — Module 4: A joint is a design decision; Machining is permission-based INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01, INT5-INP-01
32	Project/folio	Module 4: folio and project decisions	Apply Module 4 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 7	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 7 — Module 4 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
33	Practical	Module 4: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
34	Practical	Module 4: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
35	Practical	Module 4: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 36–40

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
36	Site/theory	Module 4: Join, machine and finish with purpose	Read and discuss the named website theory: Surface preparation and protection. Complete the linked knowledge check and record a short application response. Theory: Surface preparation and protection Knowledge check: Join, machine and finish with purpose Syllabus learning	Investigate issues relating to the sustainability of resources in the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 4: Surface preparation and protection INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
37	Project/folio	Module 4: folio and project decisions	Apply Module 4 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 8	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 8 — Module 4 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
38	Practical	Module 4: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
39	Practical	Module 4: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
40	Practical	Module 4: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 41–45

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
41	Site/theory	Module 5: Technology, quality and evaluation	Read and discuss the named website theory: Quality, technology and evaluation; Current and emerging manufacturing. Complete the linked knowledge check and record a short application response. Theory: Quality, technology and evaluation Theory: Current and emerging manufacturing Knowledge check: Technology, quality and evaluation Syllabus learning	Examine trade and career opportunities across the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-IND-01	Named theory/check record — Module 5: Quality, technology and evaluation; Current and emerging manufacturing INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-IND-01
42	Project/folio	Module 5: folio and project decisions	Apply Module 5 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 9	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 9 — Module 5 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
43	Practical	Module 5: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
44	Practical	Module 5: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
45	Practical	Module 5: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Teaching program | Fishing Rod Holder | Periods 46–50

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
46	Site/theory	Module 5: Technology, quality and evaluation	Read and discuss the named website theory: Folio and final evaluation. Complete the linked knowledge check and record a short application response. Theory: Folio and final evaluation Knowledge check: Technology, quality and evaluation	Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01	Named theory/check record — Module 5: Folio and final evaluation INT5-COM-01, INT5-IND-01
47	Project/folio	Module 5: folio and project decisions	Apply Module 5 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 10	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 10 — Module 5 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
48	Practical	Module 5: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
49	Practical	Module 5: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
50	Practical	Module 5: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
