

Stage 5 Metal | 200-hour master teaching program

Four-project faculty-ready default | 200 periods | 80 weeks | v2.1

Duration	200 x 60-minute periods 80 weeks	Pattern	5 periods per fortnight
Balance	40 Site/theory 40 Project/folio 120 Practical	Practical	60% of planned periods
Status	Faculty-ready default	Local authority	Teacher to confirm before delivery
Syllabus	Industrial Technology 7-10 Syllabus (2025)	Coverage	79 required official IDs 9 outcomes

Official authority: Industrial Technology 7-10 Syllabus (2025). Syllabus-learning routes support concepts and evidence; they do not authorise practical work. Current local plans, induction, demonstrations, SOPs, SDSs, PPE, supervision and permissions control production.

Faculty-ready default sequence

Order	Project	Periods	Weeks	Balance
1	Sheet-metal Toolbox	1–50	1–20	Site/theory 10 / Project/folio 10 / Practical 30
2	Fishing Rod Holder	51–100	21–40	Site/theory 10 / Project/folio 10 / Practical 30
3	BBQ and Case	101–160	41–64	Site/theory 12 / Project/folio 12 / Practical 36
4	Folding Camping Shovel	161–200	65–80	Site/theory 8 / Project/folio 8 / Practical 24

Exact Stage 5 outcomes

Outcome	Exact official wording
INT5-SAF-01	applies risk management and safe work practices in industrial technology contexts
INT5-COM-01	communicates ideas and processes in industrial technology contexts
INT5-ENV-01	assesses the impact of industrial activities and practices on society and the environment
INT5-DES-01	selects and applies design, project management and technical skills in project production
INT5-USE-01	selects and justifies the use of materials, tools and equipment to undertake projects
INT5-EVL-01	evaluates the functional, aesthetic, economic and environmental qualities of products
INT5-INP-01	analyses and applies a range of industrial processes in production contexts
INT5-PRO-01	demonstrates practical skills in the production of projects
INT5-IND-01	investigates and explains a range of industry careers, enterprise opportunities and practices

Teacher to confirm before use

ID	Confirm	Owner
TTC-METAL-01	Confirm the local timetable pattern and delivery dates against this five-period-per-fortnight default.	Program coordinator / faculty
TTC-METAL-02	Confirm assessment tasks, dates, weightings, submission method, adjustments and reporting requirements.	Program coordinator / faculty
TTC-METAL-03	Confirm current teacher-issued project plans, permitted variations, induction, SOPs, SDSs, PPE, supervision, equipment permissions, risk controls and practical observation criteria.	Class teacher / faculty
TTC-METAL-04	Confirm the collaborative production roles, component or stage, group size, individual-contribution record and teacher observation arrangements.	Class teacher / faculty
TTC-METAL-05	Confirm the two syllabus-learning.html integration routes are present and approved before document release.	Website integrator / program coordinator

Master teaching sequence | Periods 1–5

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Sheet-metal Toolbox Module 1: Workshop systems and risk management	Read and discuss the named website theory: Risk management is a process, not a poster; Safe workshop practices. Complete the linked knowledge check and record a short application response. Theory: Risk management is a process, not a poster Theory: Safe workshop practices Knowledge check: Workshop systems and risk management Syllabus learning	Identify the role of SafeWork NSW, regulations, standards and codes of practice in maintaining a safe workplace Official content Outline the principles of risk management and implement risk-reduction procedures Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-SAF-01	Named theory/check record — Module 1: Risk management is a process, not a poster; Safe workshop practices INT5-COM-01, INT5-ENV-01, INT5-SAF-01
2	Project/folio	Sheet-metal Toolbox Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 1 Project folio	Use, modify and create designs to complete projects Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 1 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
3	Practical	Sheet-metal Toolbox Demonstrate safe workshop practices and procedures when using materials...	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence Project production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Demonstrate safe workshop practices and procedures when using materials... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
4	Practical	Sheet-metal Toolbox Apply quality checks to assess metals and components for defects before...	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence Project production evidence	Apply quality checks to assess metals and components for defects before, during and after production Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-EVL-01	Apply quality checks to assess metals and components for defects before... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-EVL-01
5	Practical	Sheet-metal Toolbox Metal skills studio: heat-treatment evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: heat-treatment evidence	Apply heat treatment processes and chemical or mechanical modifications to metals to enhance or alter their... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-authorised heat-treatment or properties-modification performance, observation and reflection; equipment, process, SOP and permission remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 6–10

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
6	Site/theory	Sheet-metal Toolbox Module 1: Workshop systems and risk management	Read and discuss the named website theory: Incident response and reporting. Complete the linked knowledge check and record a short application response. Theory: Incident response and reporting Knowledge check: Workshop systems and risk management Syllabus learning	Outline the importance of Indigenous Cultural and Intellectual Property (ICIP) of Aboriginal and/or Torres... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-DES-01	Named theory/check record — Module 1: Incident response and reporting INT5-COM-01, INT5-IND-01, INT5-DES-01
7	Project/folio	Sheet-metal Toolbox Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 2 Project folio	Select and document materials, equipment and processes used to make components or projects Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01	Folio checkpoint 2 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01
8	Practical	Sheet-metal Toolbox Module 1: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 2A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
9	Practical	Sheet-metal Toolbox Assemble parts and components to make metal-based projects using...	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence Project production evidence	Assemble parts and components to make metal-based projects using suitable tools, equipment and processes Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Assemble parts and components to make metal-based projects using... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
10	Practical	Sheet-metal Toolbox Module 1: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 2C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 11–15

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site/theory	Sheet-metal Toolbox Module 2: Toolbox brief, materials and planning	Read and discuss the named website theory: Choose metal for the job; The Toolbox brief and production context. Complete the linked knowledge check and record a short application response. Theory: Choose metal for the job Theory: The Toolbox brief and production context Knowledge check: Toolbox brief, materials and planning Syllabus learning	Discuss ethical responsibilities when sourcing materials for metal projects Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 2: Choose metal for the job; The Toolbox brief and production context INT5-COM-01, INT5-ENV-01, INT5-USE-01
12	Project/folio	Sheet-metal Toolbox Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 3 Project folio	Outline and apply a quality management system to support production processes including testing, quality... Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 3 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
13	Practical	Sheet-metal Toolbox Module 2: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
14	Practical	Sheet-metal Toolbox Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
15	Practical	Sheet-metal Toolbox Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 16–20

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
16	Site/theory	Sheet-metal Toolbox Module 2: Toolbox brief, materials and planning	Read and discuss the named website theory: Design and project planning; Read the Toolbox plan before marking out. Complete the linked knowledge check and record a short application response. Theory: Design and project planning Theory: Read the Toolbox plan before marking out Knowledge check: Toolbox brief, materials and planning Syllabus learning	Identify differences between ferrous and nonferrous metals to justify their selection for specific metal... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-USE-01	Named theory/check record — Module 2: Design and project planning; Read the Toolbox plan before marking out INT5-COM-01, INT5-IND-01, INT5-USE-01
17	Project/folio	Sheet-metal Toolbox Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 4 Project folio	Apply a range of graphical communication techniques including freehand sketching, diagrams, graphs, charts or... Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 4 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
18	Practical	Sheet-metal Toolbox Module 2: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
19	Practical	Sheet-metal Toolbox Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
20	Practical	Sheet-metal Toolbox Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 21–25

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
21	Site/theory	Sheet-metal Toolbox Module 3: Mark, cut and form accurately	Read and discuss the named website theory: Accuracy before force; Marking and measuring tools. Complete the linked knowledge check and record a short application response. Theory: Accuracy before force Theory: Marking and measuring tools Knowledge check: Mark, cut and form accurately Syllabus learning	Explain the advantages and disadvantages of using different types of surface finishes and lubricants to... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01, INT5-INP-01	Named theory/check record — Module 3: Accuracy before force; Marking and measuring tools INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01, INT5-INP-01
22	Project/folio	Sheet-metal Toolbox Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 5 Project folio	Develop and apply safe data management practices when collecting and storing data Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-SAF-01	Folio checkpoint 5 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-SAF-01
23	Practical	Sheet-metal Toolbox Module 3: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
24	Practical	Sheet-metal Toolbox Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
25	Practical	Sheet-metal Toolbox Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 26–30

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
26	Site/theory	Sheet-metal Toolbox Module 3: Mark, cut and form accurately	Read and discuss the named website theory: Cutting and forming sequence. Complete the linked knowledge check and record a short application response. Theory: Cutting and forming sequence Knowledge check: Mark, cut and form accurately Syllabus learning	Identify a range of marking-out, cutting, shaping, forming, machining, embellishing, finishing and assembly... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-USE-01, INT5-INP-01	Named theory/check record — Module 3: Cutting and forming sequence INT5-COM-01, INT5-IND-01, INT5-USE-01, INT5-INP-01
27	Project/folio	Sheet-metal Toolbox Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 6	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 6 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
28	Practical	Sheet-metal Toolbox Module 3: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
29	Practical	Sheet-metal Toolbox Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
30	Practical	Sheet-metal Toolbox Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 31–35

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
31	Site/theory	Sheet-metal Toolbox Module 4: Join, machine and finish with purpose	Read and discuss the named website theory: A joint is a design decision; Machining is permission-based. Complete the linked knowledge check and record a short application response. Theory: A joint is a design decision Theory: Machining is permission-based Knowledge check: Join, machine and finish with purpose Syllabus learning	Outline the processes to apply appropriate finishes to metal projects Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01	Named theory/check record — Module 4: A joint is a design decision; Machining is permission-based INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01
32	Project/folio	Sheet-metal Toolbox Module 4: folio and project decisions	Apply Module 4 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 7	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 7 — Module 4 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
33	Practical	Sheet-metal Toolbox Module 4: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
34	Practical	Sheet-metal Toolbox Module 4: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
35	Practical	Sheet-metal Toolbox Module 4: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 36–40

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
36	Site/theory	Sheet-metal Toolbox Module 4: Join, machine and finish with purpose	Read and discuss the named website theory: Surface preparation and protection. Complete the linked knowledge check and record a short application response. Theory: Surface preparation and protection Knowledge check: Join, machine and finish with purpose Syllabus learning	Describe the effects of the metal industry on society and the environment Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 4: Surface preparation and protection INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
37	Project/folio	Sheet-metal Toolbox Module 4: folio and project decisions	Apply Module 4 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 8	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 8 — Module 4 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
38	Practical	Sheet-metal Toolbox Module 4: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
39	Practical	Sheet-metal Toolbox Module 4: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
40	Practical	Sheet-metal Toolbox Module 4: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 41–45

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
41	Site/theory	Sheet-metal Toolbox Module 5: Technology, quality and evaluation	Read and discuss the named website theory: Quality, technology and evaluation; Current and emerging manufacturing. Complete the linked knowledge check and record a short application response. Theory: Quality, technology and evaluation Theory: Current and emerging manufacturing Knowledge check: Technology, quality and evaluation Toolbox theory: advanced manufacturing Syllabus learning	Investigate advanced manufacturing techniques to assist in the production of projects in the metal industry Official content Discuss how metal industry practices evolve in response to changes in technology, society and the environment Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01, INT5-IND-01	Named theory/check record — Module 5: Quality, technology and evaluation; Current and emerging manufacturing INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01, INT5-IND-01
42	Project/folio	Sheet-metal Toolbox Module 5: folio and project decisions	Apply Module 5 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 9	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 9 — Module 5 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
43	Practical	Sheet-metal Toolbox Module 5: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
44	Practical	Sheet-metal Toolbox Module 5: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
45	Practical	Sheet-metal Toolbox Module 5: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 46–50

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
46	Site/theory	Sheet-metal Toolbox Module 5: Technology, quality and evaluation	Read and discuss the named website theory: Folio and final evaluation. Complete the linked knowledge check and record a short application response. Theory: Folio and final evaluation Knowledge check: Technology, quality and evaluation	Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01	Named theory/check record — Module 5: Folio and final evaluation INT5-COM-01, INT5-IND-01
47	Project/folio	Sheet-metal Toolbox Module 5: folio and project decisions	Apply Module 5 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 10	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 10 — Module 5 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
48	Practical	Sheet-metal Toolbox Module 5: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
49	Practical	Sheet-metal Toolbox Module 5: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
50	Practical	Sheet-metal Toolbox Module 5: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 51–55

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
51	Site/theory	Fishing Rod Holder Module 1: Workshop systems and risk management	Read and discuss the named website theory: Risk management is a process, not a poster; Safe workshop practices. Complete the linked knowledge check and record a short application response. Theory: Risk management is a process, not a poster Theory: Safe workshop practices Knowledge check: Workshop systems and risk management Syllabus learning	Recognise and comply with work health and safety (WHS) documentation and signage, and follow WHS rules when... Official content Outline the principles of risk management and implement risk-reduction procedures Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-SAF-01, INT5-DES-01	Named theory/check record — Module 1: Risk management is a process, not a poster; Safe workshop practices INT5-COM-01, INT5-ENV-01, INT5-SAF-01, INT5-DES-01
52	Project/folio	Fishing Rod Holder Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 1 Project folio	Identify sustainable materials, technologies and practices when designing projects Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01	Folio checkpoint 1 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01
53	Practical	Fishing Rod Holder Metal skills studio: safe setup evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: safe setup evidence Project production evidence	Perform safe set-up of tools and equipment, relevant to the project, including inspecting and adjusting... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-authorised setup inspection and adjustment record covering only locally approved tools/equipment; SOP, SDS, speed/feed or fume-control requirements remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
54	Practical	Fishing Rod Holder Select and use personal protective equipment (PPE) when working with...	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence Project production evidence	Select and use personal protective equipment (PPE) when working with tools, materials and machines Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Select and use personal protective equipment (PPE) when working with... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
55	Practical	Fishing Rod Holder Use drawings, jigs or templates, relevant to the project, in the...	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence Project production evidence	Use drawings, jigs or templates, relevant to the project, in the manufacture of components and assemblies Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Use drawings, jigs or templates, relevant to the project, in the... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 56–60

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
56	Site/theory	Fishing Rod Holder Module 1: Workshop systems and risk management	Read and discuss the named website theory: Incident response and reporting. Complete the linked knowledge check and record a short application response. Theory: Incident response and reporting Knowledge check: Workshop systems and risk management Syllabus learning	Investigate materials, technologies, sustainable development and Practices used to inform design solutions by... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-DES-01, INT5-USE-01	Named theory/check record — Module 1: Incident response and reporting INT5-COM-01, INT5-IND-01, INT5-DES-01, INT5-USE-01
57	Project/folio	Fishing Rod Holder Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 2 Project folio	Prepare materials lists and calculate quantities and costs when making projects Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01	Folio checkpoint 2 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01
58	Practical	Fishing Rod Holder Metal skills studio: stock-form cutting evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: stock-form cutting evidence	Apply techniques using equipment for the cutting, shaping and forming of sheet metal and metal sections... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-authorised cutting/shaping/forming performance samples across the locally approved stock forms; equipment, samples, SOPs and permission remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
59	Practical	Fishing Rod Holder Module 1: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 2B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
60	Practical	Fishing Rod Holder Apply technical skill to refine and make quality projects	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence Project production evidence	Apply technical skill to refine and make quality projects Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Apply technical skill to refine and make quality projects — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 61–65

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
61	Site/theory	Fishing Rod Holder Module 2: Fishing Rod Holder brief, materials and planning	Read and discuss the named website theory: Choose metal for the job; The Fishing Rod Holder brief and production context. Complete the linked knowledge check and record a short application response. Theory: Choose metal for the job Theory: The Fishing Rod Holder brief and production context Knowledge check: Fishing Rod Holder brief, materials and planning Syllabus learning	Investigate the sources, mining, refining and processing of ores for the production of metal products Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01	Named theory/check record — Module 2: Choose metal for the job; The Fishing Rod Holder brief and production context INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01
62	Project/folio	Fishing Rod Holder Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 3 Project folio	Use digital technologies to develop and communicate ideas Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 3 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
63	Practical	Fishing Rod Holder Prepare working environments for the production, finishing and assembly...	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence Project production evidence	Prepare working environments for the production, finishing and assembly of metal products Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-ENV-01	Prepare working environments for the production, finishing and assembly... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-ENV-01
64	Practical	Fishing Rod Holder Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
65	Practical	Fishing Rod Holder Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 66–70

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
66	Site/theory	Fishing Rod Holder Module 2: Fishing Rod Holder brief, materials and planning	Read and discuss the named website theory: Design and project planning; Read the Fishing Rod Holder components drawing. Complete the linked knowledge check and record a short application response. Theory: Design and project planning Theory: Read the Fishing Rod Holder components drawing Knowledge check: Fishing Rod Holder brief, materials and planning Syllabus learning	Investigate sustainable practices in the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 2: Design and project planning; Read the Fishing Rod Holder components drawing INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
67	Project/folio	Fishing Rod Holder Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 4	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 4 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
68	Practical	Fishing Rod Holder Module 2: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
69	Practical	Fishing Rod Holder Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
70	Practical	Fishing Rod Holder Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 71–75

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
71	Site/theory	Fishing Rod Holder Module 3: Mark, cut and form accurately	Read and discuss the named website theory: Accuracy before force; Marking and measuring tools. Complete the linked knowledge check and record a short application response. Theory: Accuracy before force Theory: Marking and measuring tools Knowledge check: Mark, cut and form accurately Syllabus learning	Identify the types and forms of metal used for sheet metal, machining and fabrication including specific... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01	Named theory/check record — Module 3: Accuracy before force; Marking and measuring tools INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01
72	Project/folio	Fishing Rod Holder Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 5	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 5 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
73	Practical	Fishing Rod Holder Module 3: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
74	Practical	Fishing Rod Holder Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
75	Practical	Fishing Rod Holder Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 76–80

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
76	Site/theory	Fishing Rod Holder Module 3: Mark, cut and form accurately	Read and discuss the named website theory: Cutting and forming sequence. Complete the linked knowledge check and record a short application response. Theory: Cutting and forming sequence Knowledge check: Mark, cut and form accurately Syllabus learning	Identify a range of hardware components and their functions for application in metal projects Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-USE-01	Named theory/check record — Module 3: Cutting and forming sequence INT5-COM-01, INT5-IND-01, INT5-USE-01
77	Project/folio	Fishing Rod Holder Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 6	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 6 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
78	Practical	Fishing Rod Holder Module 3: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
79	Practical	Fishing Rod Holder Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
80	Practical	Fishing Rod Holder Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 81–85

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
81	Site/theory	Fishing Rod Holder Module 4: Join, machine and finish with purpose	Read and discuss the named website theory: A joint is a design decision; Machining is permission-based. Complete the linked knowledge check and record a short application response. Theory: A joint is a design decision Theory: Machining is permission-based Knowledge check: Join, machine and finish with purpose Syllabus learning	Evaluate the impact of manufacturing processes on the quality of finished metal products Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01, INT5-INP-01	Named theory/check record — Module 4: A joint is a design decision; Machining is permission-based INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01, INT5-INP-01
82	Project/folio	Fishing Rod Holder Module 4: folio and project decisions	Apply Module 4 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 7	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 7 — Module 4 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
83	Practical	Fishing Rod Holder Module 4: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
84	Practical	Fishing Rod Holder Module 4: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
85	Practical	Fishing Rod Holder Module 4: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 86–90

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
86	Site/theory	Fishing Rod Holder Module 4: Join, machine and finish with purpose	Read and discuss the named website theory: Surface preparation and protection. Complete the linked knowledge check and record a short application response. Theory: Surface preparation and protection Knowledge check: Join, machine and finish with purpose Syllabus learning	Investigate issues relating to the sustainability of resources in the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 4: Surface preparation and protection INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
87	Project/folio	Fishing Rod Holder Module 4: folio and project decisions	Apply Module 4 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 8	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 8 — Module 4 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
88	Practical	Fishing Rod Holder Module 4: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
89	Practical	Fishing Rod Holder Module 4: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
90	Practical	Fishing Rod Holder Module 4: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

STAGE 5 INDUSTRIAL TECHNOLOGY - METAL INDUSTRY | 200-HOUR MASTER PROGRAM v2.1

Master teaching sequence | Periods 91–95

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
91	Site/theory	Fishing Rod Holder Module 5: Technology, quality and evaluation	Read and discuss the named website theory: Quality, technology and evaluation; Current and emerging manufacturing. Complete the linked knowledge check and record a short application response. Theory: Quality, technology and evaluation Theory: Current and emerging manufacturing Knowledge check: Technology, quality and evaluation Syllabus learning	Examine trade and career opportunities across the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-IND-01	Named theory/check record — Module 5: Quality, technology and evaluation; Current and emerging manufacturing INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-IND-01
92	Project/folio	Fishing Rod Holder Module 5: folio and project decisions	Apply Module 5 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 9	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 9 — Module 5 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
93	Practical	Fishing Rod Holder Module 5: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
94	Practical	Fishing Rod Holder Module 5: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
95	Practical	Fishing Rod Holder Module 5: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 96–100

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
96	Site/theory	Fishing Rod Holder Module 5: Technology, quality and evaluation	Read and discuss the named website theory: Folio and final evaluation. Complete the linked knowledge check and record a short application response. Theory: Folio and final evaluation Knowledge check: Technology, quality and evaluation	Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01	Named theory/check record — Module 5: Folio and final evaluation INT5-COM-01, INT5-IND-01
97	Project/folio	Fishing Rod Holder Module 5: folio and project decisions	Apply Module 5 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 10	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 10 — Module 5 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
98	Practical	Fishing Rod Holder Module 5: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
99	Practical	Fishing Rod Holder Module 5: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
100	Practical	Fishing Rod Holder Module 5: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 101–105

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
101	Site/theory	BBQ and Case Module 1: Brief, evidence and materials	Read and discuss the named website theory: Reading the BBQ-and-case brief as a production contract; From hazard review to a task-specific WMS. Complete the linked knowledge check and record a short application response. Theory: Reading the BBQ-and-case brief as a production contract Theory: From hazard review to a task-specific WMS Knowledge check: Brief, evidence and materials Syllabus learning	Outline the principles of risk management and implement risk-reduction procedures Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-SAF-01	Named theory/check record — Module 1: Reading the BBQ-and-case brief as a production contract; From hazard review to a task-specific WMS INT5-COM-01, INT5-ENV-01, INT5-SAF-01
102	Project/folio	BBQ and Case Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 1 Project folio	Identify and investigate factors influencing design in projects to develop specifications Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 1 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
103	Practical	BBQ and Case Metal skills studio: maintenance evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: maintenance evidence Project production evidence	Maintain hand tools and equipment including cleaning, lubricating or replacing consumables Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-authorised hand-tool/equipment maintenance performance and observation; equipment, consumables and procedure remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
104	Practical	BBQ and Case Metal skills studio: ethical production protocol	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: ethical production protocol	Apply ethical protocols when making metal projects Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-ENV-01	Metal skills studio: apply the teacher-issued ethical/cultural production protocol and retain an individual decision record; protocol, context and approval remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-ENV-01
105	Practical	BBQ and Case Select and use a range of marking-out tools, processes and equipment to...	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence Project production evidence	Select and use a range of marking-out tools, processes and equipment to accurately measure and mark out... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Select and use a range of marking-out tools, processes and equipment to... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 106–110

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
106	Site/theory	BBQ and Case Module 1: Brief, evidence and materials	Read and discuss the named website theory: Inputs, processes and outputs as a planning model. Complete the linked knowledge check and record a short application response. Theory: Inputs, processes and outputs as a planning model Knowledge check: Brief, evidence and materials Syllabus learning	Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01	Named theory/check record — Module 1: Inputs, processes and outputs as a planning model INT5-COM-01, INT5-IND-01
107	Project/folio	BBQ and Case Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 2 Project folio	Test and evaluate the suitability of materials and the effectiveness of tools, equipment and processes Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01	Folio checkpoint 2 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01
108	Practical	BBQ and Case Use a range of tools, equipment and machines commonly used in machining...	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence Project production evidence	Use a range of tools, equipment and machines commonly used in machining and fabrication in the production of... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Use a range of tools, equipment and machines commonly used in machining... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
109	Practical	BBQ and Case Apply techniques to ensure the precision and quality of metal components	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence Project production evidence	Apply techniques to ensure the precision and quality of metal components Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Apply techniques to ensure the precision and quality of metal components — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
110	Practical	BBQ and Case Use hand tools, power tools, machinery, chemicals and abrasives to...	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence Project production evidence	Use hand tools, power tools, machinery, chemicals and abrasives to prepare metal surfaces for the application... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Use hand tools, power tools, machinery, chemicals and abrasives to... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 111–115

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
111	Site/theory	BBQ and Case Module 2: Drawings, rails and accurate setup	Read and discuss the named website theory: Selecting stock form by function and manufacture; Turning drawings into freehand sketches and a spreadsheet cutting list. Complete the linked knowledge check and record a short application response. Theory: Selecting stock form by function and manufacture Theory: Turning drawings into freehand sketches and a spreadsheet... Knowledge check: Drawings, rails and accurate setup Syllabus learning	Explain the impact of the metal industry on Country and Aboriginal and Torres Strait Islander Communities Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-IND-01	Named theory/check record — Module 2: Selecting stock form by function and manufacture; Turning drawings into freehand sketches and a... INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-IND-01
112	Project/folio	BBQ and Case Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 3 Project folio	Apply project management strategies when developing projects Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 3 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
113	Practical	BBQ and Case Module 2: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
114	Practical	BBQ and Case Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
115	Practical	BBQ and Case Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 116–120

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
116	Site/theory	BBQ and Case Module 2: Drawings, rails and accurate setup	Read and discuss the named website theory: Datums, orientation and quality gates for rails and end caps. Complete the linked knowledge check and record a short application response. Theory: Datums, orientation and quality gates for rails and end caps Knowledge check: Drawings, rails and accurate setup Syllabus learning	Explain the environmental and societal impact of renewable and non-renewable resources used in the development... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 2: Datums, orientation and quality gates for rails and end caps INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
117	Project/folio	BBQ and Case Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 4 Project folio	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 4 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
118	Practical	BBQ and Case Module 2: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
119	Practical	BBQ and Case Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
120	Practical	BBQ and Case Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 121–125

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
121	Site/theory	BBQ and Case Module 3: Joining and controlled assembly	Read and discuss the named website theory: Hole location is a design feature, not just a mark; Drill-press principles behind the teacher-issued SOP. Complete the linked knowledge check and record a short application response. Theory: Hole location is a design feature, not just a mark Theory: Drill-press principles behind the teacher-issued SOP Knowledge check: Joining and controlled assembly Syllabus learning	Compare the properties and applications of a range of pure metals and alloys to assess their suitability for... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01	Named theory/check record — Module 3: Hole location is a design feature, not just a mark; Drill-press principles behind the teacher-issued SOP INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01
122	Project/folio	BBQ and Case Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 5	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 5 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
123	Practical	BBQ and Case Metal skills studio: digital production evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: digital production evidence	Use traditional and digital technologies to create components and detail surfaces for metal products Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-authorised traditional/digital component or surface-detailing performance and saved evidence; approved technology, file, process and SOP remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
124	Practical	BBQ and Case Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
125	Practical	BBQ and Case Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 126–130

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
126	Site/theory	BBQ and Case Module 3: Joining and controlled assembly	Read and discuss the named website theory: Inspecting drilled features and responding to faults. Complete the linked knowledge check and record a short application response. Theory: Inspecting drilled features and responding to faults Knowledge check: Joining and controlled assembly Syllabus learning	Identify and describe secondary materials, such as ceramics, timber, polymers and textiles, that could... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-USE-01	Named theory/check record — Module 3: Inspecting drilled features and responding to faults INT5-COM-01, INT5-IND-01, INT5-USE-01
127	Project/folio	BBQ and Case Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 6	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 6 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
128	Practical	BBQ and Case Metal skills studio: joining evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: joining evidence	Use a range of permanent and semi-permanent joining and fabrication techniques, including soldering, welding... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-authorised joining-technique performance samples and comparison evidence; permitted soldering, welding, fasteners, rivets, equipment and SOPs remain Teacher to confirm. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
129	Practical	BBQ and Case Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
130	Practical	BBQ and Case Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 131–135

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
131	Site/theory	BBQ and Case Module 4: WMS and repeatable work	Read and discuss the named website theory: Reading a lathe operation through the WMS; Cutting action, reference surfaces and dimensional control; Surface quality, fit and documented teacher review. Complete the linked knowledge check and record a short application response. Theory: Reading a lathe operation through the WMS Theory: Cutting action, reference surfaces and dimensional control Theory: Surface quality, fit and documented teacher review Knowledge check: WMS and repeatable work Syllabus learning	Compare permanent and semi-permanent joining techniques and fastenings for metal, and explain their uses Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01, INT5-INP-01	Named theory/check record — Module 4: Reading a lathe operation through the WMS; Cutting action, reference surfaces and dimensional control... INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-EVL-01, INT5-INP-01
132	Project/folio	BBQ and Case Module 4: folio and project decisions	Apply Module 4 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 7	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 7 — Module 4 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
133	Practical	BBQ and Case Module 4: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
134	Practical	BBQ and Case Module 4: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
135	Practical	BBQ and Case Module 4: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 7C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 136–140

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
136	Site/theory	BBQ and Case Module 5: Costs, flowcharts and terminology	Read and discuss the named website theory: Planning plate work from verified references; Grills and guard: function, spacing and manufacturability; Fit-up before permanent joining. Complete the linked knowledge check and record a short application response. Theory: Planning plate work from verified references Theory: Grills and guard: function, spacing and manufacturability Theory: Fit-up before permanent joining Knowledge check: Costs, flowcharts and terminology Syllabus learning	Investigate and apply work and enterprise skills required in the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-USE-01	Named theory/check record — Module 5: Planning plate work from verified references; Grills and guard: function, spacing and... INT5-COM-01, INT5-IND-01, INT5-USE-01
137	Project/folio	BBQ and Case Module 5: folio and project decisions	Apply Module 5 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 8	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 8 — Module 5 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
138	Practical	BBQ and Case Module 5: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
139	Practical	BBQ and Case Module 5: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
140	Practical	BBQ and Case Module 5: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 141–145

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
141	Site/theory	BBQ and Case Module 6: Industry and environmental responsibility	Read and discuss the named website theory: Stability begins with geometry and matched components; Assembly order, access and hold points; Quality assurance during structural assembly. Complete the linked knowledge check and record a short application response. Theory: Stability begins with geometry and matched components Theory: Assembly order, access and hold points Theory: Quality assurance during structural assembly Knowledge check: Industry and environmental responsibility	Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01	Named theory/check record — Module 6: Stability begins with geometry and matched components; Assembly order, access and hold points; Quality... INT5-COM-01, INT5-ENV-01
142	Project/folio	BBQ and Case Module 6: folio and project decisions	Apply Module 6 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 9 Project folio	Identify and allocate roles for collaborative production processes Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 9 — Module 6 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
143	Practical	BBQ and Case Collaborative production: role and contribution evidence	In a teacher-approved production team, make the assigned component or project stage, complete a quality hand-off and retain an individual contribution record. Approved project plan and production evidence Collaborative production: role and contribution evidence	Use collaborative production processes to make components or complete metal projects Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-DES-01	Named role, individual action record, checked component/stage, team hand-off and teacher observation. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01, INT5-DES-01
144	Practical	BBQ and Case Module 6: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
145	Practical	BBQ and Case Module 6: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 9C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 146–150

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
146	Site/theory	BBQ and Case Module 7: Preparation and finishes	Read and discuss the named website theory: Surface condition controls finish performance; Selecting and applying a finish from authoritative information; Finish inspection, maintenance and environmental responsibility. Complete the linked knowledge check and record a short application response. Theory: Surface condition controls finish performance Theory: Selecting and applying a finish from authoritative information Theory: Finish inspection, maintenance and environmental... Knowledge check: Preparation and finishes Syllabus learning	Evaluate the impact of new and emerging technologies on careers and professions in the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-USE-01, INT5-EVL-01	Named theory/check record — Module 7: Surface condition controls finish performance; Selecting and applying a finish from authoritative... INT5-COM-01, INT5-IND-01, INT5-USE-01, INT5-EVL-01
147	Project/folio	BBQ and Case Module 7: folio and project decisions	Apply Module 7 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 10	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 10 — Module 7 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
148	Practical	BBQ and Case Module 7: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
149	Practical	BBQ and Case Module 7: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 10B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
150	Practical	BBQ and Case Metal skills studio: range of finishing techniques evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: range of finishing techniques evidence	Use a range of appropriate finishing techniques to enhance or protect a completed metal product Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-observed application evidence for at least two appropriate finishing techniques across completed products and/or authorised samples, including preparation, application and quality review for each technique. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 151–155

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
151	Site/theory	BBQ and Case Module 8: Case development and quality	Read and discuss the named website theory: From three-dimensional case to flat development; Bending sequence, accumulated error and case fit; Hinges and handle as an evidence-based design problem. Complete the linked knowledge check and record a short application response. Theory: From three-dimensional case to flat development Theory: Bending sequence, accumulated error and case fit Theory: Hinges and handle as an evidence-based design problem Knowledge check: Case development and quality	Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01	Named theory/check record — Module 8: From three-dimensional case to flat development; Bending sequence, accumulated error and case fit... INT5-COM-01, INT5-ENV-01
152	Project/folio	BBQ and Case Module 8: folio and project decisions	Apply Module 8 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 11	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 11 — Module 8 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
153	Practical	BBQ and Case Module 8: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 11A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
154	Practical	BBQ and Case Module 8: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 11B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
155	Practical	BBQ and Case Module 8: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 11C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 156–160

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
156	Site/theory	BBQ and Case Module 9: Problem solving and final evidence	Read and discuss the named website theory: PMI evaluation that moves beyond opinion; Building the project report as an evidence chain; Final quality assurance and authentic submission. Complete the linked knowledge check and record a short application response. Theory: PMI evaluation that moves beyond opinion Theory: Building the project report as an evidence chain Theory: Final quality assurance and authentic submission Knowledge check: Problem solving and final evidence	Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01	Named theory/check record — Module 9: PMI evaluation that moves beyond opinion; Building the project report as an evidence chain; Final... INT5-COM-01, INT5-IND-01
157	Project/folio	BBQ and Case Module 9: folio and project decisions	Apply Module 9 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 12	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 12 — Module 9 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
158	Practical	BBQ and Case Module 9: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 12A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
159	Practical	BBQ and Case Module 9: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 12B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
160	Practical	BBQ and Case Module 9: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 12C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 161–165

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
161	Site/theory	Folding Camping Shovel Module 1: Brief, modifications and job planning	Read and discuss the named website theory: Reading the folding-shovel system through its drawings; WMS planning for a multi-process product. Complete the linked knowledge check and record a short application response. Theory: Reading the folding-shovel system through its drawings Theory: WMS planning for a multi-process product Knowledge check: Brief, modifications and job planning Syllabus learning	Outline the principles of risk management and implement risk-reduction procedures Official content Describe first aid procedures and outline the procedure to follow after particular incidents Official content Describe new and emerging technologies and their influence on the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-SAF-01, INT5-USE-01, INT5-IND-01	Named theory/check record — Module 1: Reading the folding-shovel system through its drawings; WMS planning for a multi-process product INT5-COM-01, INT5-ENV-01, INT5-SAF-01, INT5-USE-01, INT5-IND-01
162	Project/folio	Folding Camping Shovel Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 1 Project folio	Use Australian regulations, standards and codes of practice when designing and producing Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 1 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
163	Practical	Folding Camping Shovel Select and use appropriate metal and metal profiles for specific...	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence Project production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content Select and use appropriate metal and metal profiles for specific applications in the construction of metal... Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Select and use appropriate metal and metal profiles for specific... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
164	Practical	Folding Camping Shovel Use and adjust appropriate hand tools, portable power tools or machines...	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence Project production evidence	Use and adjust appropriate hand tools, portable power tools or machines for cutting, shaping, forming... Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Use and adjust appropriate hand tools, portable power tools or machines... — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
165	Practical	Folding Camping Shovel Module 1: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 1C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 166–170

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
166	Site/theory	Folding Camping Shovel Module 1: Brief, modifications and job planning	Read and discuss the named website theory: Societal and environmental criteria before manufacture. Complete the linked knowledge check and record a short application response. Theory: Societal and environmental criteria before manufacture Knowledge check: Brief, modifications and job planning Syllabus learning	Discuss the importance of graphical literacy for communication across industries Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01	Named theory/check record — Module 1: Societal and environmental criteria before manufacture INT5-COM-01, INT5-IND-01
167	Project/folio	Folding Camping Shovel Module 1: folio and project decisions	Apply Module 1 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 2 Project folio	Evaluate the effectiveness of design on the quality, function and aesthetics of finished products Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 2 — Module 1 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
168	Practical	Folding Camping Shovel Module 1: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 2A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
169	Practical	Folding Camping Shovel Module 1: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 2B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
170	Practical	Folding Camping Shovel Module 1: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 2C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 171–175

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
171	Site/theory	Folding Camping Shovel Module 2: Risk, WMS and time/action planning	Read and discuss the named website theory: Translating the shovel-head drawing into a controlled sequence; Material behaviour during forming and shaping. Complete the linked knowledge check and record a short application response. Theory: Translating the shovel-head drawing into a controlled sequence Theory: Material behaviour during forming and shaping Knowledge check: Risk, WMS and time/action planning Syllabus learning	Investigate the types and uses of a range of metals in metal projects Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 2: Translating the shovel-head drawing into a controlled sequence; Material behaviour during forming and... INT5-COM-01, INT5-ENV-01, INT5-USE-01
172	Project/folio	Folding Camping Shovel Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 3 Project folio	Propose, apply and evaluate plans for production, using project management tasks and tools Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01	Folio checkpoint 3 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01, INT5-USE-01
173	Practical	Folding Camping Shovel Module 2: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
174	Practical	Folding Camping Shovel Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
175	Practical	Folding Camping Shovel Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 3C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 176–180

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
176	Site/theory	Folding Camping Shovel Module 2: Risk, WMS and time/action planning	Read and discuss the named website theory: Checking head geometry, edges and assembly readiness. Complete the linked knowledge check and record a short application response. Theory: Checking head geometry, edges and assembly readiness Knowledge check: Risk, WMS and time/action planning Syllabus learning	Recognise the importance of conservation of materials and recycling in the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 2: Checking head geometry, edges and assembly readiness INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
177	Project/folio	Folding Camping Shovel Module 2: folio and project decisions	Apply Module 2 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 4 Project folio	Demonstrate digital literacy and information management skills when working with digital systems and in online... Official content Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 4 — Module 2 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
178	Practical	Folding Camping Shovel Module 2: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
179	Practical	Folding Camping Shovel Module 2: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
180	Practical	Folding Camping Shovel Module 2: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 4C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 181–185

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
181	Site/theory	Folding Camping Shovel Module 3: Alloys and shovel-head production	Read and discuss the named website theory: Metal-lathe SOP evidence for handle and end-plug work; Functional fits connect dimensions to movement and assembly. Complete the linked knowledge check and record a short application response. Theory: Metal-lathe SOP evidence for handle and end-plug work Theory: Functional fits connect dimensions to movement and assembly Knowledge check: Alloys and shovel-head production Syllabus learning	Describe how mechanical properties of metals may be modified by alloying, heat treatment and hot or cold... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01	Named theory/check record — Module 3: Metal-lathe SOP evidence for handle and end-plug work; Functional fits connect dimensions to movement... INT5-COM-01, INT5-ENV-01, INT5-USE-01, INT5-INP-01
182	Project/folio	Folding Camping Shovel Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 5	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 5 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
183	Practical	Folding Camping Shovel Module 3: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
184	Practical	Folding Camping Shovel Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
185	Practical	Folding Camping Shovel Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 5C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 186–190

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
186	Site/theory	Folding Camping Shovel Module 3: Alloys and shovel-head production	Read and discuss the named website theory: Threads as controlled geometry and evidence. Complete the linked knowledge check and record a short application response. Theory: Threads as controlled geometry and evidence Knowledge check: Alloys and shovel-head production Syllabus learning	Investigate metal ores used by Aboriginal and/or Torres Strait Islander Peoples on-Country Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 3: Threads as controlled geometry and evidence INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
187	Project/folio	Folding Camping Shovel Module 3: folio and project decisions	Apply Module 3 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 6	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 6 — Module 3 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
188	Practical	Folding Camping Shovel Module 3: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
189	Practical	Folding Camping Shovel Module 3: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
190	Practical	Folding Camping Shovel Module 3: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 6C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 191–195

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
191	Site/theory	Folding Camping Shovel Module 4: Fits, threads and machining	Read and discuss the named website theory: Pivot parts: centres, alignment and movement path; Milling as a controlled relationship between tool, work and reference; Drilling RPM calculations: formula, units and authorised setting. Complete the linked knowledge check and record a short application response. Theory: Pivot parts: centres, alignment and movement path Theory: Milling as a controlled relationship between tool, work and... Theory: Drilling RPM calculations: formula, units and authorised... Knowledge check: Fits, threads and machining Syllabus learning	Create written texts to explain the practical applications and safety requirements of a range of tools and... Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-ENV-01, INT5-SAF-01, INT5-USE-01	Named theory/check record — Module 4: Pivot parts: centres, alignment and movement path; Milling as a controlled relationship between tool... INT5-COM-01, INT5-ENV-01, INT5-SAF-01, INT5-USE-01
192	Project/folio	Folding Camping Shovel Module 4: folio and project decisions	Apply Module 4 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 7	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 7 — Module 4 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
193	Practical	Folding Camping Shovel Metal skills studio: complete lathe operations evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: complete lathe operations evidence	Perform metal lathe operations including drilling, facing, knurling and parallel turning Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-observed records of drilling, facing, knurling and parallel-turning performance across authorised project work and/or practice samples, with the approved setup, demonstration and safety controls for each operation. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
194	Practical	Folding Camping Shovel Metal skills studio: internal and external thread-cutting evidence	Complete the named teacher-authorised whole-course Metal skills studio checkpoint. Use only the locally approved equipment, process, samples, SOP, PPE, supervision and permission; the syllabus-learning page supports concepts and evidence but does not authorise practical work. Metal skills studio: internal and external thread-cutting evidence	Apply techniques using equipment for the cutting of internal and external screw threads Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Metal skills studio: teacher-observed performance record for one authorised internal thread and one authorised external thread, including the approved technique and a fit check for each. INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
195	Practical	Folding Camping Shovel Shovel machining: precision measurement evidence	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence Shovel machining: precision measurement evidence	Machine metals with precision, ensuring accuracy by using micrometers and vernier callipers Official content Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Shovel machining: precision measurement evidence — teacher observation, checked result and saved evidence INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01

Master teaching sequence | Periods 196–200

P	Type	Project / focus	Teaching and learning	Syllabus content	Evidence / outcomes
196	Site/theory	Folding Camping Shovel Module 5: Pivot, RPM, assembly and evaluation	Read and discuss the named website theory: Handle and pivot assembly as a functional quality gate; Societal and environmental impact report with evidence; PMI, project report and authentic Task 2 submission. Complete the linked knowledge check and record a short application response. Theory: Handle and pivot assembly as a functional quality gate Theory: Societal and environmental impact report with evidence Theory: PMI, project report and authentic Task 2 submission Knowledge check: Pivot, RPM, assembly and evaluation Syllabus learning	Identify ethical, cultural and sustainability practices used in the metal industry Official content Use subject-specific terminology to communicate industrial technology concepts Official content INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01	Named theory/check record — Module 5: Handle and pivot assembly as a functional quality gate; Societal and environmental impact report with... INT5-COM-01, INT5-IND-01, INT5-ENV-01, INT5-USE-01
197	Project/folio	Folding Camping Shovel Module 5: folio and project decisions	Apply Module 5 learning to the current approved project. Update the folio with the relevant decision, supporting evidence, quality check and next step. Project folio: checkpoint 8	Create written texts to document, reflect on and evaluate project development, production and management... Official content INT5-COM-01, INT5-DES-01, INT5-EVL-01	Folio checkpoint 8 — Module 5 decision, supporting evidence and teacher feedback INT5-COM-01, INT5-DES-01, INT5-EVL-01
198	Practical	Folding Camping Shovel Module 5: setup and approved stage	Confirm the current teacher-issued plan, hazards, controls, setup, permission and quality hold point. Complete only the demonstrated production stage. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8A — Safe setup, authorised stage and first quality hold point INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
199	Practical	Folding Camping Shovel Module 5: controlled production	Continue the current teacher-approved production stage. Follow the applicable demonstration, SOP and controls; check accuracy, fit, form or surface quality before continuing. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8B — Teacher observation of controlled process and named quality check INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
200	Practical	Folding Camping Shovel Module 5: evidence and review	Complete the current approved checkpoint. Photograph or otherwise record the result, annotate the quality finding and response, then clean down and store work safely. Approved project plan and production evidence	Demonstrate safe workshop practices and procedures when using materials, tools and equipment in metal projects Official content INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01	Practical checkpoint 8C — Checkpoint image or record, annotated quality finding and safe clean-down INT5-SAF-01, INT5-USE-01, INT5-INP-01, INT5-PRO-01
